INTRODUCTION

The University of Toledo Bachelor of Social Work (BSW) program is fully accredited by the Council on Social Work Education (CSWE), and therefore the BSW program’s curricular content and educational context has been developed in accordance with the Council on Social Work Education 2022 Educational Policy and Accreditation Standards (EPAS). The EPAS can be accessed online at the CSWE website: www.cswe.org. Thus, the University of Toledo Bachelor of Social Work graduates are eligible to take the examination required for licensure as a bachelor’s level social worker.

Brief Description of Field Experience

Field education is the capstone of social work education. The field experience program provides the senior social work students with a 448-hour professional social work internship over consecutive fall and spring semesters. The field experience provides students with a structured opportunity to master and integrate the CSWE core competencies, classroom learning and generalist social work practice skills under the supervision of a professionally qualified field instructor. The field organization provides a laboratory environment in which the student’s generalist social work practice skills, knowledge, professional characteristics, and achievement of the field learning competencies are evaluated.
**Mission Statement**

*The mission of the social work program is to further social justice through education, community engagement, and research.*

The faculty and staff of the undergraduate BSW Program at the University of Toledo are committed to this mission. Through the generalist model we strive to prepare our students to practice ethically in all settings and with attention to the values of the profession of social work with a focus on social and economic justice.

**THE UNIVERSITY OF TOLEDO BACCALAUREATE SOCIAL WORK PROGRAM**

**Goals And Curriculum Objectives**

Goal 1. To prepare social workers to use the generalist practice model and strengths perspective of professional practice.

Objectives in support of this goal are as follows:

- a. To utilize the liberal arts curriculum and build upon it to develop professional practice skills.
- b. To promote values and principles consistent with those of the social work profession and to promote professional ethics.
- c. To understand and interpret the history of the social work profession and its contemporary structures and issues.
- d. To develop critical thinking and social work practice skills in working with individuals, families, groups, organizations, communities, and society.
- e. To use theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and the interactions among individuals and between individuals and families, groups, organizations, and communities.
- f. To analyze, formulate, and influence social policies.
- g. To prepare students to practice in a manner that enhances the profession of social work through the evaluation and application of research and utilization of technology.
- h. To promote the development of professional work habits and characteristics.
- i. To prepare students for continuing professional education and lifelong learning.

Goal 2. To prepare social workers to incorporate social and economic justice into their practice framework.

Objectives in support of this goal are as follows:

- a. To promote a proactive stance in relation to social and economic justice and oppression.
- b. To identify the need for social change and to enact strategies that advance human rights.
- c. To practice critical thinking and the investigation of social and economic justice and oppression.
- d. To apply the values of the social work profession and its Code of Ethics in relation to issues of social and economic justice and oppression.

Goal 3. To prepare social workers to appreciate diversity and practice in a manner that enhances the strength of individuals, families, groups, organizations, and communities.
Objectives in support of this goal are as follows:
   a. To promote a proactive stance toward working to eliminate the oppression of marginalized social and cultural groups.
   b. To develop an understanding of multiculturalism and diversity.
   c. To incorporate critical thinking into the understanding of oppression, multiculturalism, and diversity.
   d. To use the values of the profession of social work and the professional Code of Ethics in relation to issues of oppression, multiculturalism, and diversity.

Goal 4. To be proactive in responding to the impact of context on professional practice by engaging in a collaborative relationship with the social work community.
Objectives in support of this goal are as follows:
   a. To convene bi-annually with an advisory board comprised of members of the community with an interest in social work practice and education.
   b. To provide ongoing training and support to field supervisors.
   c. To provide service to the social work community through, but not limited to, service on agency boards of directors, workshops, paper presentations, publications and/or consultation services.

Core Competencies

The Council on Social Work Education (CSWE) Policy and Accreditation Standards require that BSW students attain mastery of 9 Core Competencies. “Assessment of student learning outcomes is an essential component of competency-based education. Assessment provides evidence that students have demonstrated the level of competence necessary to enter professional practice, which in turn shows that programs are successful in achieving their goals.” (EPAS, 2022). The attainment of the CSWE 9 Core Competencies and practice behaviors are to be exhibited by the Social Work Student Intern and evaluated in the field experience setting. This course achieves all nine competencies and practice behaviors which are:

Competency 1: Demonstrate Ethical and Professional Behavior

Social workers understand the value base of the profession and its ethical standards, as well as relevant policies, laws, and regulations that may affect practice with individuals, families, groups, organizations, and communities. Social workers understand that ethics are informed by principles of human rights and apply them toward realizing social, racial, economic, and environmental justice in their practice. Social workers understand frameworks of ethical decision making and apply principles of critical thinking to those frameworks in practice, research, and policy arenas. Social workers recognize and manage personal values and the distinction between personal and professional values. Social workers understand how their evolving worldview, personal experiences, and affective reactions influence their professional judgment and behavior. Social workers take measures to care for themselves professionally and personally, understanding that self-care is paramount for competent and ethical social work practice. Social workers use rights-based, anti-racist, and anti-oppressive lenses to understand and critique the profession’s history, mission, roles, and responsibilities and recognize historical and current contexts of oppression in shaping institutions and social work. Social workers understand the role of other professionals when engaged in interprofessional practice. Social workers recognize the importance of lifelong learning and are committed to continually updating their skills to ensure relevant and effective practice. Social workers understand digital technology and the ethical use of technology in social work practice.
Social workers:

a. make ethical decisions by applying the standards of the National Association of Social Workers Code of Ethics, relevant laws and regulations, models for ethical decision making, ethical conduct of research, and additional codes of ethics within the profession as appropriate to the context;

b. demonstrate professional behavior; appearance; and oral, written, and electronic communication;

c. use technology ethically and appropriately to facilitate practice outcomes; and

d. use supervision and consultation to guide professional judgment and behavior.

**Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice**

Social workers understand that every person regardless of position in society has fundamental human rights. Social workers are knowledgeable about the global intersecting and ongoing injustices throughout history that result in oppression and racism, including social work’s role and response. Social workers critically evaluate the distribution of power and privilege in society in order to promote social, racial, economic, and environmental justice by reducing inequities and ensuring dignity and respect for all. Social workers advocate for and engage in strategies to eliminate oppressive structural barriers to ensure that social resources, rights, and responsibilities are distributed equitably, and that civil, political, economic, social, and cultural human rights are protected.

Social workers:

a. advocate for human rights at the individual, family, group, organizational, and community system levels; and

b. engage in practices that advance human rights to promote social, racial, economic, and environmental justice.

**Competency 3: Engage Anti-Racism, Diversity, Equity, and Inclusion (ADEI) in Practice**

Social workers understand how racism and oppression shape human experiences and how these two constructs influence practice at the individual, family, group, organizational, and community levels and in policy and research. Social workers understand the pervasive impact of White supremacy and privilege and use their knowledge, awareness, and skills to engage in anti-racist practice. Social workers understand how diversity and intersectionality shape human experiences and identity development and affect equity and inclusion. The dimensions of diversity are understood as the intersectionality of factors including but not limited to age, caste, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, generational status, immigration status, legal status, marital status, political ideology, race, nationality, religion and spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that this intersectionality means that a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege and power. Social workers understand the societal and historical roots of social and racial injustices and the forms and mechanisms of oppression and discrimination. Social workers understand cultural humility and recognize the extent to which a culture’s structures and values, including social, economic, political, racial, technological, and cultural exclusions, may create privilege and power resulting in systemic oppression.
Social workers:

a. demonstrate anti-racist and anti-oppressive social work practice at the individual, family, group, organizational, community, research, and policy levels; and

b. demonstrate cultural humility by applying critical reflection, self-awareness, and self-regulation to manage the influence of bias, power, privilege, and values in working with clients and constituencies, acknowledging them as experts of their own lived experiences.

**Competency 4: Engage in Practice-Informed Research and Research-Informed Practice**

Social workers use ethical, culturally informed, anti-racist, and anti-oppressive approaches in conducting research and building knowledge. Social workers use research to inform their practice decision making and articulate how their practice experience informs research and evaluation decisions. Social workers critically evaluate and critique current, empirically sound research to inform decisions pertaining to practice, policy, and programs. Social workers understand the inherent bias in research and evaluate design, analysis, and interpretation using an anti-racist and anti-oppressive perspective. Social workers know how to access, critique, and synthesize the current literature to develop appropriate research questions and hypotheses. Social workers demonstrate knowledge and skills regarding qualitative and quantitative research methods and analysis, and they interpret data derived from these methods. Social workers demonstrate knowledge about methods to assess reliability and validity in social work research. Social workers can articulate and share research findings in ways that are usable to a variety of clients and constituencies. Social workers understand the value of evidence derived from interprofessional and diverse research methods, approaches, and sources.

Social workers:

a. apply research findings to inform and improve practice, policy, and programs; and

b. identify ethical, culturally informed, anti-racist, and anti-oppressive strategies that address inherent biases for use in quantitative and qualitative research methods to advance the purposes of social work.

**Competency 5: Engage in Policy Practice**

Social workers identify social policy at the local, state, federal, and global level that affects well-being, human rights and justice, service delivery, and access to social services. Social workers recognize the historical, social, racial, cultural, economic, organizational, environmental, and global influences that affect social policy. Social workers understand and critique the history and current structures of social policies and services and the role of policy in service delivery through rights-based, anti-oppressive, and anti-racist lenses. Social workers influence policy formulation, analysis, implementation, and evaluation within their practice settings with individuals, families, groups, organizations, and communities. Social workers actively engage in and advocate for anti-racist and anti-oppressive policy practice to effect change in those settings.

Social workers:

a. use social justice, anti-racist, and anti-oppressive lenses to assess how social welfare policies affect the delivery of and access to social services; and

b. apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, racial, economic, and environmental justice.
Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that engagement is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of individuals, families, groups, organizations, and communities.

Social workers value the importance of human relationships. Social workers understand theories of human behavior and person-in-environment and critically evaluate and apply this knowledge to facilitate engagement with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers are self-reflective and understand how bias, power, and privilege as well as their personal values and personal experiences may affect their ability to engage effectively with diverse clients and constituencies. Social workers use the principles of interprofessional collaboration to facilitate engagement with clients, constituencies, and other professionals as appropriate.

Social workers:

- apply knowledge of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, to engage with clients and constituencies; and
- use empathy, reflection, and interpersonal skills to engage in culturally responsive practice with clients and constituencies.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities

Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in culturally responsive assessment with clients and constituencies, including individuals, families, groups, organizations, and communities. Assessment involves a collaborative process of defining presenting challenges and identifying strengths with individuals, families, groups, organizations, and communities to develop a mutually agreed-upon plan. Social workers recognize the implications of the larger practice context in the assessment process and use interprofessional collaboration in this process. Social workers are self-reflective and understand how bias, power, privilege, and their personal values and experiences may affect their assessment and decision making.

Social workers:

- apply theories of human behavior and person-in-environment, as well as other culturally responsive and interprofessional conceptual frameworks, when assessing clients and constituencies; and
- demonstrate respect for client self-determination during the assessment process by collaborating with clients and constituencies in developing a mutually agreed-upon plan.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that intervention is an ongoing component of the dynamic and interactive process of social work practice. Social workers understand theories of human behavior, person-in-environment, and other interprofessional conceptual frameworks, and they critically evaluate and apply this knowledge in selecting culturally responsive interventions with clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of identifying, analyzing, and implementing
Social workers:

a. engage with clients and constituencies to critically choose and implement culturally responsive, evidence-informed interventions to achieve client and constituency goals; and

b. incorporate culturally responsive methods to negotiate, mediate, and advocate with and on behalf of clients and constituencies.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Social workers understand that evaluation is an ongoing component of the dynamic and interactive process of social work practice with and on behalf of diverse individuals, families, groups, organizations, and communities. Social workers evaluate processes and outcomes to increase practice, policy, and service delivery effectiveness. Social workers apply anti-racist and anti-oppressive perspectives in evaluating outcomes. Social workers understand theories of human behavior and person-in-environment, as well as interprofessional conceptual frameworks and critically evaluate and apply this knowledge in evaluating outcomes. Social workers use qualitative and quantitative methods for evaluating outcomes and practice effectiveness.

Social workers:

a. select and use culturally responsive methods for evaluation of outcomes; and

b. critically analyze outcomes and apply evaluation findings to improve practice effectiveness with individuals, families, groups, organizations, and communities.

BSW SOCIAL WORK FIELD EXPERIENCE PROGRAM

Senior Field Experience Prerequisites

To be eligible for senior field placement the student must attain senior status (90 + semester hours toward graduation) in the Social Work Program and complete (no incompletes) all required social work courses listed below with a grade of C or better. (Please note that a C- is below a C). The student’s University of Toledo G.P.A. must be 2.25 or above and the student must have a social work major G.P.A. of 2.5 or above. The student must submit an Application for Senior Field Placement to the BSW field director according to the process described in this Field Education Manual. Upon reviewing the student’s application, the BSW field director will decide whether the student will be admitted into the senior field experience sequence and permitted to register for the social work senior field experience sequence courses. The program does not give credit for life experience or work experience in lieu of any of the social work senior field experience sequence courses.
Senior Field Experience Prerequisite Social Work Courses

</tr>
</tbody>
</table>

Social Work Practice II, Social Work Field Seminar II, and Social Work Field Experience II are to be completed concurrently during the fall semester of the student’s senior year. In order to be admitted into the Social Work Field Experience III, Social Work Field Seminar III and Social Work Practice III courses, the student must pass the Social Work Field Seminar II, and Social Work Practice II with a “C” or better grade and she/he must earn a “Pass” rating for Social Work Field Experience II. If the student fails to meet any of these requirements the student will not be permitted to enroll into the spring semester senior field experience sequence courses. The student must reapply for field placement and concurrently retake Social Work Field Experience II, Social Work Field Seminar II and Social Work Practice II. The student may be required to complete a remediation plan before being allowed to reapply for another senior field placement and before being permitted to register for Social Work Field Experience II, Social Work Field Seminar II, and Social Work Practice II. The student may also be referred to the Social Work Academic Performance and Professional Review Committee.

Social Work Practice III, Social Work Field Seminar III and Social Work Field Experience III, courses are to be completed concurrently during the spring semester of the student’s senior year. The student must pass Social Work Field Experience III, Social Work Field Seminar III and Social Work Practice III with a “C” or better grades. If the student fails to meet any of the grade requirements the student will be required to reapply for field placement. If the student is accepted, the student will be required to retake the entire senior field experience sequence. The student may be required to complete a remediation plan before being allowed to reapply for another senior field placement and before being permitted to register for Social Work Field Experience II, Social Work Field seminar II, and Social Work Practice II. The student may also be referred to the Social Work Academic Performance and Professional Review Committee.
Description of the Social Work Field Experience II and III Courses

The Field Experience II and III courses provide the student with a 224-hour professional internship in an agency. Sixteen hours per week is to be completed through and including the end of the 14th week of the fall and spring semesters of the student’s senior year for a total of 448 hours. The student is assigned to the same agency during the fall and spring semesters. The student is to integrate classroom learning with practice in a social service agency under the supervision of a professionally qualified agency field instructor.

The successful field student will exhibit competency in beginning generalist social work skills at the end of the senior field experience sequence through the achievement of the nine competencies outlined in the Field Experience Education Plan and Evaluation (located at the end of this document).

At the beginning of the fall semester the student, under the supervision and consultation of the field instructor, is required to develop a Field Experience Education Plan which contains the student’s and field placement site’s responsibilities and the student’s field experience competencies, learning activities for entry level mastery of the nine competency areas.

The student’s field liaison is also the student’s professor for the Field Experience II and III and the Field seminar II and III courses. The field liaison assists the field instructor and the field student in developing the education plan, monitoring, planning and evaluating the student’s field learning experience and addresses any concerns of either party related to the field experience. The field liaison determines the student’s field experience final grades. The final grade for each course will be determined by the:

1. Results of the evaluation, along with the discussion of the completed Field Experience Education Plan and Evaluation during the evaluation meeting with the field instructor, field liaison and student. The evaluation component of the Field Experience Educational Plan and Evaluation is completed by the field instructor and is used to measure the student’s entry level mastery of the core competency areas.
2. Fulfillment of the terms of the student’s Field Experience Educational Plan
3. Completion of 224 hours in the field organization by the end of each semester

Description of Field Experience Seminar II and III Courses

These field seminar courses are designed to assist the students as a group in processing and adjusting to field experience and to the role of a social work practitioner. The student will also be assisted in integrating social work theory and the NASW Code of Ethics with practice through processing and class presentations directly related to the field experience. The monitoring and administrative details related to the fulfillment of requirements related to the Social Work Field Experience II and III courses are also handled in these seminar courses. Thus, the student is oriented to the academic expectations and measures used to evaluate their field experience and assisted in the development of their Field Experience Education Plan. The seminar class will meet once a week.
Social Work Practice II and III Course Descriptions

Social Work Practice II

The course provides advanced theory and skill development as a generalist social worker working with organizations and communities. Emphasis is on a strengths and empowerment perspective focused on social and economic justice.

Social Work Practice III

The course provides advanced theory and skills development as a generalist social worker working with individuals, families and groups. Emphasis is on a strengths and empowerment perspective focused on social and economic justice.

SENIOR FIELD EXPERIENCE APPLICATION AND MATCHING PROCESS

The senior student applicant is to adhere to the following process in order to assure a timely assignment to a field placement. Please note that the BSW field director will make the field placement contacts for assigning students. Under no circumstances should a student make contact with an field placement representative without prior discussion with and approval from the BSW field director.

In order to provide appropriate supervision and experience, most field placements require that the senior field student be available during weekday and daytime hours. Some field placements may have some early evening hours available. Therefore, it is required that the senior field placement applicant arrange their schedule so that they will be available to fulfill the required 16 field hours per week during weekday and daytime hours.

A solid effort will be made to place the student in their area of interest; however, the student’s choice of field placement is not guaranteed. It is important to note that our social work program is dedicated to preparing the student as a generalist social work practitioner as opposed to preparing the student as a specialist in one particular area. It is the program’s primary responsibility to match the student with a field placement that can provide a generalist practice experience, appropriate supervision, and the opportunity to master the nine core competency areas. However, the social work program will make every effort to place the student in an area of practice that is of particular interest to the student. The student may request a specific field placement; however, there is no guarantee that the student will be matched with that particular field placement. It is of major importance that the student identifies and clarifies their interests in the application form. The BSW field director will then work toward placing the student in a field placement that matches their interests, the requirements of the field placement site, and the requirements of the social work program.

Students with Criminal Histories

Students who have been convicted of a felony or a first-degree misdemeanor may encounter limited field experience opportunities. A majority of field placements screen applicants for criminal records and do not accept interns who have a criminal record. The BSW field director also screens for criminal history through the application process. If a student has a criminal history, it is recommended that the student at the time of entry into the Social Work Program discusses their circumstances with the BSW program director and again with the BSW field director in the process of applying for field placement to determine an appropriate field placement site. The student with a criminal record is advised that such a record may also affect their eligibility for social work licensure. For the state of Ohio, please contact the Ohio
Students with a Verifiable Disability

Students who have a verifiable physical and/or mental disability and who need accommodations in their field placement should indicate this information in their Senior Field Experience Application. The student should also register with the University of Toledo Student Disability Services, which will work with the Social Work Program in assessing the need for accommodations and in arrangements for appropriate accommodations in the field placement.

The student is welcome to contact the BSW field director by email, phone, during office hours, or make an appointment to discuss any concerns or questions regarding their field placement at any time, but especially throughout the following steps of the application and matching processes.

Process for Applying and Being Matched to a Field Agency:

1. **Read the Bachelor of Social Work Field Education Manual** which is available on the University of Toledo Social Work Program Website at: [https://www.utoledo.edu/hhs/socialwork/undergrad_program.html](https://www.utoledo.edu/hhs/socialwork/undergrad_program.html). The Field Education Manual contains the description, requirements, responsibilities, policies and procedures of the Field Experience Program. The manual is used by the student, faculty and the field placement staff throughout the senior field experience sequence. The Attachment Section of the Field Education Manual contains the required **Senior Field Placement Application** form necessary to apply for Senior Field Placement. Within the application the student is required to sign a statement of understanding certifying they have read, understand, and agree to comply with the terms as specified in the Bachelor of Social Work Field Education Manual.

2. The student applicant is required to (1) complete the Senior Field Placement Application form; (2) attach a Resume and previous field experience evaluation; and (3) submit these documents to the BSW Field Director by March 1st prior to the fall semester in which the student anticipates being eligible for senior field placement. The application will not be processed if any information is missing. The application forms can be found at the end of this manual and on the University of Toledo Social Work Program Website: [http://www.utoledo.edu/hhs/socialwork/undergrad_program.html](http://www.utoledo.edu/hhs/socialwork/undergrad_program.html).

3. **The BSW field director will review all applications**, and in consultation with the social work program faculty, will assign each student to a field placement. The BSW field director may contact the student to obtain further information or clarification.

4. **The BSW field director will notify the student regarding their assigned field placement**, the name of the field placement’s contact person (which usually is the field instructor) and the field placement’s phone number and/or email. In most cases the student should receive this information by the end of June. In some situations, it may take longer to make the necessary arrangements.

5. **Immediately set up the field placement interview.** Upon receiving the field placement information and referral the student is to contact the field placement contact person and set
up a date and time for an interview. The student is to advise the BSW field director of the date and time of the interview.

6. **Prepare for the agency interview.** The interview is particularly important in finalizing the field placement assignment and should be handled like an employment interview. Thus, the student should dress in appropriate professional attire and take a copy of his/her resume and projected fall schedule. The student will need to determine if their schedule will accommodate the days and hours during the week that they will be expected to be at the field placement in order to gain the maximum experience from the available learning opportunities at the field placement. The field placement contact person and the student will determine together whether the student and the field placement are a suitable match. The student should be prepared to answer questions regarding their educational and career related experiences and goals, and why they might desire that field placement. The student should also be prepared with questions regarding the field placement’s expectations of the student and the type of learning experiences and opportunities that will be made available to the student. Some field placements require police record checks, drug screens, health screens, etc. If these are required, the student must have results of any testing or record checks available to the field placement according to their policies and procedures before the first day of classes in the fall semester. The student will be responsible for costs not covered by the field placement.

If the student has a criminal record, it is recommended that the student discuss these issues at the time of the interview.

If the student has a verifiable disability and needs the field placement to provide reasonable accommodations, the student should discuss this issue at the time of the interview. The BSW field director will be available to work with the student and the agency.

7. **Complete the BSW Field Placement Confirmation Form.** Before the end of the interview the field placement representative is to complete the BSW Field Placement Confirmation form. This form will be signed by the student and the field placement representative to indicate whether or not both parties agree with the field student and field placement match.

8. **Submit the BSW Field Placement Confirmation form to the BSW field director.** The placement process is completed when the BSW field director receives the Field Placement Confirmation form indicating that the student and the field placement agree to the placement. The field contact person may return the form to the BSW field director, or the student may return the form to the BSW field director.

9. **If mutual agreement is not reached,** the student will be assigned to a second field placement and repeat steps 4 through 8 listed above. Please note that at this point the choices in agencies will be limited. If the student is not accepted by a second field placement or the student does not accept a second field placement match, the BSW field director will meet with the student to discuss, assess, and try to resolve the situation. The BSW field director may at that time decide to either try a third and last referral field placements match or delay the entry into the senior field experience for one year. If a one-year delay occurs, the student will be required to reapply for senior field placement.

10. **Malpractice insurance is provided by the University of Toledo** for each student in their field placement.
11. **Mandatory Senior Field Orientation.** To properly prepare students for entry into their field placement and to understand the senior field course requirements the senior field students are required to attend an orientation session prior to beginning their field placement. The orientation is held the Sunday prior to the first day of fall semester, to review procedures and required documents for the first week of internship and to answer any questions so the students are adequately prepared for a successful first week and semester. Students may not be able to begin their field placement if they have not attended this orientation session.

**FIELD PLACEMENT REQUIREMENTS AND SELECTION PROCESS**

Field placements must be able to provide students with structured learning opportunities to practice generalist social work skills and to meet the competency areas under the supervision of field instructors, who meet the criteria and qualifications, set by the University of Toledo Social Work Program. The field placement must provide services to client systems that are poor, and/or vulnerable, and/or oppressed. The field placement’s policies, program designs, and delivery of services must reflect social work ethics and values as well as be congruent with the University of Toledo Bachelor of Social Work Program’s mission statement, program goals, and curriculum objectives. The field placement must be agreeable to enter and abide by the terms of an Affiliation Agreement with the University of Toledo.

The BSW field director is responsible for the identification, negotiation, and approval of field placements for the Social Work Field Experience II and III courses. Interested field placements may contact the BSW field director to begin the process. The BSW field director will review and discuss with the field placement representative the requirements that are contained in the BSW Field Education Manual and the terms of the Affiliation Agreement. If the BSW field director and the field placement representative agree that the agency would be an appropriate field agency they will proceed with the next steps. The BSW field director will then provide the Dean’s office with the field placement information, and they will then create and mail two affiliation agreements to the field placement. The field placement’s responsible party will sign both original copies and return both signed originals to the Dean’s office. Once the two copies are received, the Dean will sign off on both; one original copy will be sent to UT’s Office of Legal Affairs, the second original copy will be sent back to the field placement site and a copy will be electronically filed in the Dean’s office. The field placement site will periodically be requested to update the registration forms to reflect any changes in the field placement site and field instructor information. Affiliation Agreements will only be renewed as required by field placement and University policies. New field instructors will be invited to orientation and annual enrichment field instructor training sessions.

**FIELD INSTRUCTOR REQUIREMENTS AND SELECTION PROCESS**

The social work field instructor is determined by the field placement to which the student is assigned. The field instructor must meet the following minimum requirements in order to supervise a BSW social work student enrolled in the Social Work Field Experience II and III courses:

1. A Bachelor’s or Master’s Degree in Social Work from a CSWE accredited program or an LSW in the State of Ohio.
2. A minimum of two years of social work experience post-undergraduate degree as well as have worked for the agency for at least one year.
3. The Field Instructor must agree to fulfill the following duties:
   A. Participate in new field instructor orientation and on-going field instructor training sessions.
B. Provide students with an orientation to include organizational structure, mission, policies, and procedures.

C. Ensure that the student knows and understands his/her rights and responsibilities as an intern within the field placement.

D. Provide the student with specific and ongoing safety procedures related to personal health and safety risks encountered within the field placement experience and assess the student’s understanding of safety matters and his/her ability to handle threatening situations in a mature and professional manner.

E. Together with the student, develop the Field Experience Education Plan to include appropriate learning activities tailored to the student’s learning needs and specific learning opportunities that the field placement has available to the student in accordance with the core competencies and practice behaviors.

F. Provide a minimum of one hour per week of formal supervision.

G. At the end of each semester complete the evaluation component of the Field Experience Education Plan and Evaluation; participate in a meeting with the student and field liaison to discuss and review the student’s performance and progress; and at the end of the first semester consider additions to the Field Experience Education Plan in view of the student’s strengths and professional learning needs.

H. Provide role modeling and guidance to the student in comporting themselves and practicing in an ethical manner in accordance with the NASW Code of Ethics.

I. Notify the field liaison or BSW field director of any concerns, problems, or questions as soon as they become evident.

J. Be familiar with and abide by the requirements and policies of the University of Toledo Bachelor of Social Work Field Education Manual and participate in training students in accordance with the social work program’s mission, goals, and educational objectives.

On occasion a field placement provides services that are in concert with the social work programs mission and goals but does not have a qualified BSW or MSW available to serve as field instructor. The field placement in consultation with the BSW Field Director may identify and make arrangements with a qualified BSW or MSW within or outside the agency to provide additional supervision to reinforce the social work perspective, values, and principals, and to coordinate with the field instructor regarding the student’s supervision needs. Also, the BSW field director can identify a qualified faculty member to provide the required supervision.

Field instructors may assign students to work with task instructors on a day-to-day basis. The field instructor in these cases still meets with the student for weekly supervision and consults regularly with the task instructor and is responsible for the student’s learning.

BSW PROGRAM POLICIES RELATED TO FIELD PLACEMENT

Informed Consent Policy
Because social workers serve vulnerable people and have an impact on the lives of their clients, it is critical to ensure that graduating students are competent to begin practice and meet professional and ethical standards. Field education is the natural bridge between the academic preparation of social work students and social work employment. A student's formation as a professional social worker is accomplished by bringing together a field placement setting and field instructor with an academic program and a field liaison who, as a team, support and direct
the student as they practice. Because this team of field liaison and field instructor is charged with promoting the professional growth and development of the student, the sharing of relevant information about the student and their progress is necessary for effective supervision. To this end, relevant information, written and oral, will be shared with involved parties i.e., student, field instructor, field liaison, faculty, program director, and department chair as appropriate. This information will be shared to protect clients as well as students and to facilitate the placement and learning process. Students, faculty, field liaison and field instructors will have knowledge of the policy before the placement process begins.

Relevant information is defined as that which has a direct impact on field placement and the student’s learning. Information is relevant when it affects students’ work with clients, field instructors, agency staff or the learning process.

**Procedures:**

1. The policy will be located in the BSW Field Education Manual. It will be discussed in field seminars and field instructor orientations.
2. Appropriate self-disclosure and possible outcomes of sharing will be discussed with students in Social Work Field Seminar and/ or during Senior Field Orientation.
3. If concerns arise about a student during the placement interview process, the field director will discuss the concerns with the student including implications for future placements and social work as a profession.

**Professional Liability Insurance for Social Work Field Experience Students**

Students who have enrolled and have paid for the Senior Field Experience II and III courses will be covered at no cost through the University of Toledo. This coverage is only in effect while students are participating in academically approved social work internships. The liability insurance is to cover all the student’s professional activities in the amount of One Million Dollars ($1,000,000.00) per claim, Three Million Dollars ($3,000,000.00) aggregate.

Upon request, the Social Work Program will provide a declaration of coverage for each student indicating the type of coverage, the applicable dates, the amount of coverage, and the name of the insured to the student’s field placement.

**Life/Work Experience Credit Policy**

The fieldwork experience is of central importance for the educational development of the social work student. However, life and work experience in and of itself is not considered “field experience.” The process by which the experience is gained is considered paramount within social work education. The key element of field experience is the integration of course work, qualified supervision, and freedom to address concerns in a nurturing but academic environment. As a result, the social work program will not accept or grant academic credit for past life work experience unless that experience is part of academic credit awarded by a social work program accredited by the Council on Social Work Education.

**Policy and Procedures for Monitoring BSW Students in Field**

1. Students attend weekly seminar courses (SOCW 4200 and SOCW 4210) to provide weekly opportunity for processing their internship placements.
2. Students submit weekly reflective journals processing their field experiences. These journals are read/graded by the seminar instructor and returned each week with feedback.
3. The students submit weekly activity logs to identify the time spent in their internships, all learning activities in which they are involved, and link each learning activity to the
related competencies. The logs are signed by their field instructors and have a space for feedback to be written by the field instructor. These are read/graded by the seminar classroom instructor and returned each week.

4. If the student is not submitting log and journal assignments on time, the student’s internship placement may be interrupted until the assignments are submitted.

5. Each student participates in the mid internship and end of the internship evaluation. During the mid-internship evaluation feedback is given and goals are set for the remainder of the time in field.

6. Any concerns or red flags identified by the student, field instructor, task instructor or classroom instructor are addressed either in class, by phone, by email, or in person meeting with all those involved.

7. If concerns are not resolved, a new field placement may be explored.

8. A student may also be referred to the Academic and Professional Performance Review Committee (APPRC) for additional support or recommendations.

Field Placement in the Student’s Place of Employment Policy and Procedures

Students requesting that their employment-site be considered for their field agency placement must complete the BSW Field Placement at Place of Employment Request Form (under attachments at the end of this manual) and submit it to the University of Toledo Social Work BSW Field Director along with the Field Placement Application Form.

It is recommended that a meeting with or draft of the request form be submitted to the BSW field director for review and suggestions before submitting the final signed request form.

Before the student submits the request to the BSW field director, the student is to review the completed request with the following agency persons and obtain their approval and signatures:

- the agency administrator who has the authority to approve the employee’s internship within the agency
- the student’s employment supervisor
- the student’s proposed agency field instructor.

Upon receipt of the student’s request, the BSW field director will review the request and then contact the appropriate agency representative to discuss the student’s request. The BSW field director will then decide to accept or not accept the request.

The typed request form must contain and show proof that all requirements and elements listed below will be present at the time of the student’s proposed internship at the place of employment.

1. The proposal must be typed, and all items must be addressed in the request.

2. The name, address, and phone number of the field placement where the student is requesting to complete the internship.

3. List the name and contact information of the field placement representative with whom the BSW field director can discuss the Request for BSW Field Placement at Place of Employment.

4. Proof that the student has completed their probationary period at the agency.
5. Proof that the field placement and field instructor meet the University of Toledo’s BSW Program’s eligibility requirements.

6. A statement that acknowledges that the employment supervision and field supervision time will be separate.

7. A statement that the student understands and accepts that the student is at risk of not completing the social work internship and may fail the field placement course if they terminated as an employee by agency and the agency also decides to discontinue the internship.

8. The job description with correlated social work competencies from Appendix A.

Student as Agency Volunteer Policy
Student interns do not function in the same capacity as agency volunteers. They are expected to perform in a professional capacity. Therefore, it is imperative that the students’ responsibilities are clearly delineated and based on the Field Experience Education Plan and that supervision is provided by the agency through the field instructor. In their internship capacity, students shall not render services apart from their educational value or perform tasks that are not routinely done by professional staff within the agency. Students are responsible for completing the required 224 hours at an average of 16 hours per week for both Social Work Field Experience II and III. Students who choose to volunteer additional hours in the field placement will be viewed during that time solely as a volunteer and their actions and activities as a volunteer shall be governed solely by the agency's policies and procedures.

Conflict of Interest in Field Agency Assignment Policy
Students will not be assigned to field agencies in which the possibility of a conflict of interest may occur which may: negatively affect the student’s learning opportunities; affect the objectivity of the evaluation process; or present any possible breach of confidentiality of any party involved. Such situations may include but are not limited to; the student or the student’s immediate family member being a current or former client of the agency or a student’s relative being an employee or a member of a governing arm of the agency. Students are responsible for informing the field director of any possible conflicts of interest. The student may inform the field director of the possible conflict of interest in the Senior Field Application Form or by setting up an appointment to discuss the situation.

Internship Schedule Policy
Students need to schedule their internship hours in time blocks of 4 hours or more for their weekly schedule. This is so that each student can become part of the agency in which they are placed. If there are occasionally smaller blocks of time for a student to attend a special event or program this is acceptable but not on a weekly basis.

Policy Related to the Safety of Students in Field Placement
The Council on Social Work Education requires that some of the educational objectives be achieved through student participation in a supervised internship in a social service agency. Social workers practice in child welfare, the mental health system, medical facilities, corrections, juvenile corrections, and a variety of other settings where there are personal health and safety risks. While the social work program will provide students with knowledge and skills
to address potentially harmful situations, the students must accept personal responsibility for choosing a profession that carries some risk.

In the classroom, the social work faculty will provide students with a basic, generic knowledge of safety issues related to client contacts and community travel. However, the field instructor must provide the students with specific agency safety procedures and instruct the students around issues specifically related to the population served. The field instructor must also assess the students’ understanding of safety matters and their ability to handle threatening situations in a mature and professional manner.

At the beginning of the field placement, the field instructor shall provide instruction on agency policies regarding safety matters. This should include information on all emergency procedures both on and away from the agency premises. It is also the responsibility of the agency to advise the students of potential health risks in the work environment. The need for vaccinations, health screens, and physicals should be explained along with procedures to reduce the risk of exposure to communicable or infectious disease. The students are to be responsible for obtaining the agency required vaccinations, health screens, and physicals. The students are also responsible for the costs incurred which are not covered by the agency.

On an ongoing basis, the field instructor will assist the students in developing skills to assess the potential dangers or interactions with clients and community members, to diffuse situations if possible, and to access appropriate assistance if it is unsafe to handle the situation alone. Students in Social Work Field Experience II (SOCW 4220) shall not make home visits alone during the first 10 weeks of this first semester in their field agency. After the 10 week period the student may make home visits alone if this is accepted agency practice and the following criteria are met: the client and family are known to the agency and pose minimal risk to the student's safety; the neighborhood surrounding the client's home is deemed safe for travel during the hours of the scheduled visit; the student has demonstrated an understanding of safety procedures for community travel and for assessing the safety of a home environment; and the student has demonstrated the ability to use professional skills and judgment in the face of unanticipated events.

Students shall not be the driver when transporting clients.

**Transportation Policy**

Students must provide their own transportation to and from their field placement. As part of their field placement duties, students may be required to use their personal automobiles for home visits and agency visits. **Students may not transport clients.** Students are responsible for providing adequate automobile insurance coverage to cover the use of their personal vehicle while performing field agency related duties and activities.

If permitted by the field agency, students may use agency vehicles to perform duties related to their field experience but not to transport clients. Students, however, must follow the agency policies and procedures when using agency vehicles. The students are responsible to ascertain and verify that the agency has appropriate insurance coverage of the student and the agency vehicles when the student uses an agency vehicle to perform agency duties or activities during their field experience hours.

Students are responsible for incurred costs related to parking and driving to and from the field placement agency, making home visits, and agency visits. Some agencies reimburse the costs,
and some do not. The students are responsible for ascertaining whether the agency will cover the driving costs and to follow the appropriate agency procedures for reimbursement.

**Mealtime Policy**
If the student is present for 5 or more hours at their internship, the student will follow the lunch/dinner procedure of their agency for meals. For example, if the employees receive 1 hour for lunch, the student may take 1 hour for their lunch, if the employee receives 30 minutes for lunch, the student may take 30 minutes. If the agency does not allow paid mealtimes, the student may take 30 minutes if they are at the internship for 5 or more hours. In other words, if you intern for 5 hours or more you can count the agency approved lunch time to your total field hours for the week. This time is to be used as a meal break and not to be skipped to leave early or arrive late.

**Policy for Completing Internship Hours at Home**
A student will gain the most from the internship experience while engaged with the agency, programs, staff, and other professionals. Therefore, only 5% of the internship hours can be completed at home. If there are extenuating circumstance, then the student will schedule to meet with their field instructor/supervisor and their classroom instructor/liaison to develop a written agreement identifying the extenuating circumstance and the amount of time agree upon to complete internship hours at home.

**Health Insurance Policy**
Payment for medical, hospital and emergency treatment, in case of illness or injury, must be borne by the student. Students are required to maintain health insurance coverage. Health insurance is available for purchase through the University of Toledo. For more information refer to the following link: [https://www.utoledo.edu/depts/hr/benefits/student/](https://www.utoledo.edu/depts/hr/benefits/student/)

**Maintenance of Field Liaison Contact with Field Education Setting**
The BSW student intern will provide the placement field instructor with an electronic copy of their Field Experience and Field Lab Syllabi and *Field Experience Education Plan and Evaluation* at the beginning of each semester. The field instructors will also be provided with the phone number and e-mail address of the field liaison located on the *Field Experience Education Plan and Evaluation* first page. The field liaison will maintain contact with the field instructor through the field student’s Activity Logs. The field student is to submit a weekly activity log to the field liaison in which the intern records their field hours and corresponding activities and match those activities to the competencies in their field plan. The activity logs are to be reviewed and signed by the field instructor. The activity log contains a section for field instructor to include their comments about the intern to the field liaison. The field liaison will read, grade, and provide written feedback to the student. The field liaison may deem it necessary to discuss concerns with the student first and guide the student in addressing the concern. The concern may necessitate communication with the field instructor to further discuss and resolve the concern.

A minimum of one evaluation meeting per semester is required in which the BSW intern, the field liaison and the field instructor meet to review the evaluation component of the *Field Experience Education Plan and Evaluation* completed by the field instructor. Additional field meetings may be requested by the field liaison, the student, or the field instructor to address any concerns. New field instructors are to be invited to participate in a new field instructor orientation training session. Also, field instructor training is provided to field instructors at least once per semester of the academic year. A representation of field instructors is also to be included on the Social Work Program Advisory Board.
Field Placement Termination and Transfer
Termination or transfer of students from their assigned field agency is extremely rare and should only occur for compelling reasons.

The field instructor may request the termination of a student from the agency whose performance is unsatisfactory or unethical; whose personal characteristics prevent desirable relationships with the agency; or whose health status is a detriment to the student’s successful completion of the professional experience. The field instructor may also request a termination or transfer of the student if the field instructor or the agency no longer is able to provide the opportunities to meet the terms of the Field Experience Education Plan or the Affiliation Agreement.

A student may request a transfer to another field instructor or agency if the field instructor fails to meet the terms of the Field Experience Education Plan or the Affiliation Agreement, on legal or ethical grounds, or can medically verify that their health status is a detriment to their successful completion of the professional experience.

The field liaison or field director may initiate a change of field instructor or removal of a student from an agency for the same reasons a student or field instructor might request a termination or transfer. In addition, the field liaison may determine that a particular setting is currently not conducive to the student achieving the field experience learning objectives. Students may be terminated from field placement for a serious violation of confidentiality or other violations of the NASW Code of Ethics.

Before the field instructor or student requests a termination of the student from the agency or transfer of the student to a different field instructor they should attempt through conversation to resolve the problem or concern. The student and field instructor, together or separately, may at any time consult with or seek advice from the field liaison in their efforts to reach a solution. The field liaison, the student, or the field instructor may request a three-way conference. As part of the resolution process, the field instructor or the field liaison should document the issues, concerns, and suggested behavioral interventions needed for resolution and include a time frame set for attaining needed changes. If no solution is reached the field instructor or student is to submit to the field liaison a written request for termination or transfer of the student. The written request should include the reasons and describe the attempts that were made toward resolution. The field liaison will review the request and make a recommendation of action to the BSW field director. The BSW field director will make a final decision. The field liaison will advise all parties of the final decision.

The BSW field director and/or the BSW program director reserve the right to immediately remove students from field placement who pose harm to clients or the agency and/or who have committed a serious ethical violation.

The student’s assignment to a field agency will be automatically terminated should they fail or receive less than a “C” or “No Credit” grade in any of the following social work courses: Social Work Field Experience II, Social Work Field Seminar II, and Social Work Practice II. Less than a “C” and “No Credit” final grades equate a failing grade in the course. Please refer to the “Grading” section on the course syllabus. The student will not be reassigned to another agency. The student may be required to complete a remediation plan before being allowed to reapply for another senior field placement and before being permitted to register into Social Work Field Experience II, Social Work Field Seminar II, and Social Work Practice II.
The reasons for the student’s termination from the field agency may be of such a serious nature that the field director may request a review by the Academic Performance and Professional Review Committee (APPRC) for further determination of the student’s status within the Social Work Program.

Student’s Non-Academic Grievance Procedure Related to Social Work Field Experience within the Field Agency

Student non–academic grievances related to field education experience will be handled within the Social Work Program according to the following procedures:

1. The student will be asked to speak directly with the person at the field agency with whom they have a grievance. If the person is not the student’s field instructor, the student should consult with their field instructor who will inform the student of relevant and applicable agency policies and procedures.

2. If the student believes their rights still have been violated, the student should request that the field liaison schedule a meeting with the student, the field instructor, and the field liaison for further discussion. The student should document their grievance and should use the Social Work Student Field Incident Report form. The field liaison will document the results of the meeting and the decision made and send copies to all present at the meeting and to the field director.

3. If a satisfactory resolution does not come forth from that meeting the matter is brought by the field liaison to the field director for a decision. The field director may meet with the student, field liaison and agency representative and may invite the BSW Program Director, particularly in the cases in which the field director also acts as the field liaison. The field director will document the results of the meeting and their decision and send copies to all present at the meeting.

4. If the issue remains unsettled, a meeting of all parties is scheduled by the field director with the BSW program director, if not previously involved. The BSW program director will document the results of the meeting and their decision and send copies to all present at the meeting.

5. If the issue is not satisfactorily resolved in steps 1-4 the student may bring the grievance to the School of Social Justice Chair, the Associate Dean, or the Dean of the College.

6. Any grievances related to sexual harassment will be handled according to the University of Toledo Title IX Policy. Please refer to: https://www.utoledo.edu/title-ix/

Social Work Student Field Incident Report

A Social Work Student Incident Report form is to be completed by the student to document any critical incident in which the student was involved, and which occurred during the student’s internship hours or is directly related to the student’s internship. These incidents may include but are not limited to physical injuries or threats, accidents, ethical violations, and sexual harassment. The report will be reviewed by the field liaison, BSW field director and/or the MSW field director. The Incident Report Form serves to document the student’s perception of the incident. Please refer to the Attachment Section of the Field Education Manual for a copy of the Social Work Student Incident Report form.
Social Work Program Policy and Procedure for Reporting Sexual Harassment

Social Work Field Program Policy:
The sexual harassment of field experience students by any employee or associate of the field agency will not be tolerated. To ensure that students are placed in an agency that affords an environment conducive to learning and free of sexual harassment, field students along with their field instructors will complete the Field Agency Safety Review form which assesses the existence of an agency sexual harassment policy and the students understanding of the policy and the agency procedures for reporting sexual harassment. In consideration of the student’s safety, well-being and learning environment, it is strongly recommended that a student, who believes that they are experiencing sexual harassment at their field agency by an employee, or any associate of the field agency report the incident(s) to the social work field program.

Social Work Field Program Reporting Procedure:
A student, who believes that they are experiencing sexual harassment at their field agency by an employee or any associate of the field agency, should discuss the incident(s) with their field instructor, unless the field instructor is the alleged perpetrator. The student is to also discuss the incident with their field liaison. The student will also complete an Incident Report Form and submit it to their field liaison who will submit a copy to the BSW field director. The field liaison and student will review the completed Incident Report Form; assess with the student the student’s safety, comfort at the agency, the learning environment; and together make a plan that would safeguard the student’s safety, well-being, and field learning. The field liaison will discuss the incident with the agency field instructor or appropriate agency representative. The field agency’s harassment policy and procedures will be reviewed by the field liaison, student, and field instructor and/or an appropriate agency representative. The field liaison will work with the student, the field instructor or appropriate agency representative to complete the steps required by the field agency’s sexual harassment policy and procedures. A final written report from the agency will be requested for the student and the social work program. The student’s safety, wellbeing, learning and timely completion of the required field hours are of utmost importance. Thus, in the student’s best interest it may be decided by the field liaison and field director that the student is to be moved away from the alleged perpetrator and make arrangements to intern in a different department within the field agency or be referred to a different field agency. The field liaison will prepare a final report to the BSW field director as to the disposition of the sexual harassment incident by the agency and the resolution as to the student’s field agency placement and status. The BSW field director will report the sexual harassment complaint to the University of Toledo Director of Title IX and Compliance.

University of Toledo Sexual Harassment Policies
The University of Toledo is committed to educational and working environments that are free from sex discrimination (including sexual harassment and sexual violence) or retaliation. Individuals who experience sexual misconduct in a university program or activity, whether on or off campus, are encouraged to utilize one or more of the options contained in the following link: https://www.utoledo.edu/title-ix/

University of Toledo Equal Opportunity Policy
The University of Toledo does not discriminate on the basis of race, color, religion, sex, age, national origin, ancestry, sexual orientation, gender identity and expression, military or veteran status, the presence of a disability, genetic information, familial status, political affiliation, or participation in protected activities in its provision of employment and educational opportunities. Discrimination, including discriminatory harassment, on any of those bases is strictly prohibited. Upon notice of possible discrimination, the University takes prompt and
appropriate steps to determine what occurred, end a discriminatory practice or hostile environment if one has been created, and prevent its recurrence. Retaliation against anyone because they made a complaint or served as a witness or otherwise engaged in activity protected by this policy is also strictly prohibited by this policy. The University encourages anyone who believes they have been subjected to conduct in violation of this policy to file a complaint under this policy to ensure that the University has an opportunity to address prohibited conduct. Please refer to the following link for more information: https://www.utoledo.edu/title-ix/discrimination-resources.html

ACADEMIC AND PROFESSIONAL PERFORMANCE REVIEW COMMITTEE

The following policy is also found in the Social Work Program Student Handbook:

Social work education serves the function of assuring that competent individuals enter the social work profession, and UT’s social work programs are committed to ensuring that students from our program are well-suited for the professional demands, roles, and responsibilities of social workers. Our programs seek to enhance the probability that students will succeed educationally and professionally. As such, our programs utilize a committee of the faculty called the Academic Professional Performance Review Committee (APPRC) for this purpose. This committee functions through a strength’s perspective, with the purpose of helping students succeed. At times social work faculty, academic advisors, staff, or students may have concerns about a particular student’s performance in the BSW or MSW program – concerns that raise questions about the student’s ability to succeed academically or their suitability for a career in social work. The social work programs have established the Academic Professional Performance Review Committee (APPRC) to address these concerns. The following policies and procedures govern the functioning of the APPRC.

**Definition of Academic & Professional Performance**

Our social work programs, like other professional education programs, define academic and professional performance as more than just the attainment of an adequate grade. We agree with Cole & Lewis (2000) and the U.S. Supreme Court that “… professional behavior, especially in clinical and practice settings, is an academic requirement and therefore an educational component of professional preparation” (p.214). Therefore, concerns about student performance and suitability may include problems with behavior in the classroom and field settings and elsewhere. Both grade-related and behavioral difficulties may signify that a student needs support or that academic disciplinary action is needed.

**Composition of the Academic Professional Performance Review Committee**

The APPRC consists of a minimum of four social work faculty/staff members. The committee will include at least one member of the BSW Committee and one member of the MSW Committee. When processing concerns related to a student’s field placement, at least one representative from the field committee will be present. Neither the department chair, department secretary, nor adjunct faculty may be members of the APPRC.

The committee will select a chairperson or co-chairs at the beginning of each academic year.

Note: Students are excluded from membership on the APPRC to ensure the privacy of referred students.
Referral to the Academic Professional Performance Review Committee

When a referral to the APPRC should be made: When issues occur in the classroom, an attempt to resolve the issue should first take place between the instructor and the student. When issues occur in the field, the field instructor and/or Field Director and/or Field Committee should first follow established procedures to resolve the issue. If the classroom or field issue is not resolved to the satisfaction of the student, instructor, or field personnel, the matter should be referred to the APPRC. This process should take place as quickly as possible. Early intervention may improve the likelihood of student success.

Who may make a referral to the APPRC: A student may be referred to the APPRC by any full time or part time UT social work faculty or staff member. A student may also self-refer to the APPRC. If other concerned individuals, such as the student’s agency field instructor, academic advisor, or other students present potential problems with a particular student to a social work faculty member, this member may decide to make a referral to the committee. Referrals must be made to the committee Chair using the APPRC Referral Form. If the Chair of the APPRC initiates a request to bring a student before the APPRC or there is another conflict of interest, another committee member will be designated as chair for the meeting in which the committee reviews that student.

Why a referral to the APPRC may be made: Students may be referred to the APPRC for two reasons: Grades and Behavior. Student performance issues may arise in the classroom, the student’s field placement, or in other public venues.

Grades: If an undergraduate or graduate social work student is on course to potentially receive a grade of D or lower at midterm, the instructor should refer the student to the APPRC. Referrals exclude students in the Introduction to Social Welfare course since these students are not declared majors. Students that receive a D or lower on a quiz, test, paper, or other assignment may be referred to the APPRC for early intervention, as well. Students who are accused of academic dishonesty may be referred to the APPRC and to other appropriate university offices.

Behavior: Behavior in the classroom, at the University in general, or in other public venues may be cause for referral to the APPRC. UT BSW or MSW students that demonstrate unethical or unprofessional behavior in the classroom should first receive instruction, guidance, and correction by the instructor who recognizes this as a teachable moment. Any instructor or student that believes the issue has not been resolved to their satisfaction may make a referral to the APPRC. Students that demonstrate unethical or unprofessional behavior in the field should first receive instruction, guidance, and correction from their field supervisor. The field supervisor may notify the Field Instructor who may decide to address the issue with the student, the Field Director, and/or the Field Committee, and will follow the appropriate protocol as established. Referrals to the APPRC regarding issues in the field should come from field personnel. Students whose behavior in other public venues may be of concern may be referred to the APPRC, as well. In such cases, the student’s advisor and or the director of their academic program will meet with the student in an attempt to remediate the issue. If unsuccessful, the program director or the advisor may refer the student to the APPRC. Students that are thought to be in violation of the Student Code of Conduct, Hazing, Sexual Misconduct, or who violate the university’s zero tolerance policy will also be referred to the appropriate university offices.
Student Rights & Responsibilities

Student Responsibilities
Once a student receives an emailed request to appear before the APPRC, the student must respond by accepting one of the two dates provided by the APPRC committee. If the student is not able to attend one of the two dates, the APPRC chair will provide a third date and time. Appearing before the APPRC is mandatory. A meeting must be set within two weeks of the student receiving the notice from the APPRC. Whether the student appears or not, the APPRC will meet and will make decisions and recommendations. Students who do not appear before the committee will be subject to abide by the committee’s decisions and recommendations.

Student Rights
Prior to the APPRC meeting, students will be provided with the same documentation the APPRC receives related to the issues at hand. A student may exercise his/her right to meet with their instructor ahead of time to try to resolve the issue before the APPRC meeting. If the issue is resolved before the APPRC meeting, the instructor will notify the APPRC chair and provide a written accounting of how the issue has been resolved.

Students may bring any documentation with them to the APPRC meeting that they deem relevant to the issues to be discussed.

Students have the right to bring someone to support them to the APPRC meeting. The support person may remain silent and offer emotional support or may be used to help shed light on the situation.

Student Privacy and Confidentiality
All procedures relating to the performance review shall be carried out in a manner that will protect the student's right to privacy consistent with federal and state privacy laws. Members of the committee and all other people who appear at the review meeting are expected to observe the confidential nature of the information made available to them, as well as any discussion held during the meeting. Actions and recommendations of the committee are to be confidential and shared only with the student, University personnel and those persons involved with the student in an educational capacity.

The faculty operates under the professional concept of a "circle of confidentiality," which means that departmental personnel and field instructors have a right and an obligation to exchange information about students. Such an exchange is necessary because student performance may impact the operation of the program, the integrity of the program in meeting its goals and objectives, the student’s potential for success, and the safety and well-being of UT and field agency personnel, other students, and agency clients.

Procedures and Process

Before the Meeting
At the beginning of each semester, APPRC members will meet to discuss preferred meeting times for that semester. When arranging meetings with students, an effort will be made to schedule meetings within the time frames discussed. Additional meetings may be scheduled throughout the semester to accommodate students’ schedules or address committee business.

When a student is referred to the APPRC, the committee Chair will inform the student’s advisor via email and schedule the student’s review for the soonest available committee meeting. The
Chair will notify the student in writing, via email, that a referral has been made and communicate with the student to confirm the date and time of the student’s review. If the student’s availability requires that the committee meet at a time other than their regularly scheduled meeting times, the Chair is responsible for initiating the process of finding a time agreeable to both the student and committee members.

Prior to each committee meeting, the Chair shall notify committee members via email of the meeting’s agenda, e.g., which students will be reviewed, and/or policies to be discussed. If a student is to be reviewed, the Chair will forward a copy of the student’s APPRC Referral Form and any other relevant materials to all committee members and to the student.

**The Meeting Itself**

The student whose performance will be reviewed is expected to attend the performance review meeting. If the student has been contacted about the meeting and does not respond or refuses to attend, the review will be conducted in her/his absence. Prior to the meeting date, the student is responsible for contacting the chair to confirm her/his intent to attend the meeting.

The student may invite one or more people to attend the committee meeting in a supportive capacity. It is the student's responsibility to notify the chair of the committee ahead of time regarding who she/he is inviting to attend. The student may invite their attorney. However, in academic disciplinary situations students do not have constitutional rights to legal counsel. If a student wishes to have an attorney present, the committee may permit such requests, but the professional capacity of the student’s attorney is strictly advisory. They may not participate unless the committee gives permission (Cobb, Ramsdell, & Hunter, 2000, p. 240). The student’s BSW advisor or MSW advisor may be invited to attend the meeting. Other people who have significant knowledge of the problem or of the student's academic performance, such as the person who made the referral, also may be invited by the committee chair. The chair may invite additional administrative resources from within the institution, as appropriate.

The chair has the authority to limit the number of people who will be attending the review.

**During the Meeting**

APPRC meetings are comprised of five parts: committee preparation, introduction, discussion, deliberations, and recommendations.

1) Committee Preparation. Prior to the meeting, committee members are expected to review any materials they have received about the student. Before the student and their guests enter the meeting, committee members will meet to orient themselves as a group to the student’s situation. During this time, the committee Chair will designate a recorder from among the committee members. The recorder is responsible for completing the APPRC Decision Page and reviewing it with committee members before the meeting is adjourned. After committee orientation and appointment of the recorder, the student and their guests will be invited into the meeting.

2) Introduction. The committee Chair will facilitate the introduction of everyone present at the meeting. S/he will describe to the student and any non-committee members who may be present the purpose of the meeting, the committee’s strengths-based philosophy, and committee procedures, including confidentiality expectations.

3) Discussion. The Chair will facilitate the presentation of issues raised by the person who made the referral (if present), the student, and any other individuals who possess relevant information. The Chair also will moderate discussion of these facts.
4) Deliberation. The committee will deliberate on the issues involved. In many cases, all deliberations will take place with the student present. In some cases, the committee may ask the student and their guests to step out of the room momentarily if deemed necessary. Instances in which the student might be asked to momentarily step out of the meeting may include situations that necessitate committee discussion with the student not present. It is intended that the student will be present for as much of the committee's deliberation as is possible. If asked to leave the meeting momentarily, when appropriate, the student will be asked to return for the remainder of the deliberations. When possible, the student will be present for the entire deliberation process. Only committee members, students, and/or additional administrative resources from within the institution shall be present for this part of the meeting. Committee members analyze the facts that were presented and identify potential responses to the student’s situation.

5) Recommendations. The committee will reach a consensus regarding recommendations for a plan of action and deliver those recommendations to the student. These recommendations will be recorded and will be forwarded in writing to the student within one week.

Possible Outcomes of Performance Review
The APPRC may make recommendations and requirements ranging from self-awareness exercises to expulsion from the social work major. Examples of these recommendations and requirements are:

- Specific self-awareness exercises
- Using the UT Writing Center
- Tutoring
- Mentoring
- Referral to other resources
- Additional assessment, e.g., psychological, neurological, physiological
- Field placement reassignment or discontinuation
- Extended field placement hours
- Retaking one or more courses
- Completing an ethics course
- Mutually agreed upon counseling
- Mutually agreed upon alcohol and drug rehabilitation treatment
- Delaying continuation in the social work program for a set period of time. If this action is required, after the set period of time, the student must appear before the committee to request readmission. At this time, the student must demonstrate that they have addressed the concerns that led to delayed continuation.
- Referral to the UT Student Conduct and Community Standards Office
- Permanent removal from UT’s BSW or MSW Program

The committee will establish a time frame for implementation, completion, and review of the plan. The student will be made aware of the committee’s recommendation prior to adjournment.

After the Meeting
The Chair will designate a recorder who will complete the Follow up Form summarizing what took place in the meeting along with the recommendations and actions of the committee. Within a one-week period, the committee Chair will email a letter to the student, the program director, the student’s academic advisor, and the person who referred the student from the APPRC that will include:

- A brief description of the issues discussed
The recommendations and/or actions taken by the committee.

- Any relevant instructions for the student including time periods for completing tasks, reporting mechanisms and to whom to report, instructions for making successful progress in the program, or instructions for re-entrance into the program.
- A suggested date that the APPRC chair will follow up with the student and other appropriate parties regarding the issues discussed and the status of the student’s progress.

After following up with the student as described above, the chair will notify all appropriate parties regarding the findings of the follow-up effort.

The Chair or his/her designee will keep copies of all materials prepared for the committee in advance of the meeting and generated by the committee during and after the meeting. These materials will be stored in such a way that confidentiality is assured. The current Chair has the responsibility of passing committee records on to the next Chair.

**Appeal Process**

Any student appearing before the APPRC may appeal the committee’s decisions. The first level of appeal is the Chair of the Department Criminal Justice, Social Work, & Legal Specialties. The student must submit their appeal in writing within six (6) weeks of the APPRC meeting. The department Chair will review the appeal and respond in writing to the student within one month of receiving the student’s appeal request. If the student wishes to appeal the department Chair’s decision, they may submit an appeal in writing to the Dean of the College of Health Science and Human Service.

**UNDERGRADUATE SOCIAL WORK FIELD MANUAL ATTACHMENTS**

(Listed in alphabetical order, except for the *BSW Field Experience Education Plan and Evaluation* form due to landscape page layout)

- Application for Senior Field Placement Form
- Potential Field Agency Placement Sites
- BSW Field Placement Confirmation Form
- Daily Field Activity Log Form
- Field Agency Safety Review Form
- Field Placement in the Student’s Place of Employment Request Form
- Offer of Employment at Internship Form and Checklist
- Social Work Student Field Incident Report Form
- Student’s Evaluation of the Field Agency Experience
- BSW Field Experience Education Plan and Evaluation Form
APPLICATION FOR SENIOR FIELD PLACEMENT  
Fall Term 2023 and Spring Term 2024

Instructions:
Complete application in its entirety
Once complete, email to william.weaver@utoledo.edu by 3/1/2023
Include Subject Line: BSW Field application (If this is not included in the subject line you run the risk that your application may get lost.

Name: _____  
Rocket ID #: _____

Street Address: _____  
Phone Number: _____
City: _____  
State: _____  
Zip: _____

E-Mail: _____

Will you be in Toledo over the summer months? 
If not, when will you leave?

_During the summer months, you will be contacted by both phone and email so please monitor closely. If your email or phone contact changes, please contact Bill Weaver immediately to advise him of the change._

Social Work Field Placement Prerequisites:

To be eligible for field placement you must attain senior status (90 + semester hours toward graduation) in the Social Work Program and complete (no incompletes) all required social work courses listed below with a grade of C or better. (Please note that a C- is below a C). Your UT G.P.A. must be 2.25 or above and you must have a social work major G.P.A. of 2.5 or above.

Please complete the following information. Include the social work courses you have completed and the social work courses in which you are currently enrolled. Include any Incomplete (“IN”) grades and In-Progress grades (“IP”).

</tbody>
</table>
If you have an incomplete “IN” in any of the above listed courses or will not have completed all of the above listed courses by the end of the Spring Semester in which you are applying for field, please explain when and how you plan to satisfactorily complete each of these courses before the beginning of the next fall semester. Failure to have a reasonable plan will result in making you ineligible for a field agency placement.

Senior Field classes are on Fridays. You will register for the following senior field courses:

**Fall semester 2022:**
SOCW 4120: Social Work Practice II.
SOCW 4200: Social Work Field Seminar II. This section number must match SOCW 4220
SOCW 4220: Social Work Field Experience II. This section number must match SOCW 4200.
(This course is your internship and does not have a class meeting time)

**Spring semester 2022; you will register for the same sections as fall semester:**
SOCW 4130: Social Work Practice III
SOCW 4210: Social Work Field seminar III
SOCW 4230: Social Work Field III

Please meet with your advisor to know the additional courses that you will need to register for and successfully complete to graduate. Remember when you register for classes, you will need to have 16 hours per week available for your internship. This typically is completed in two 8-hour days but cannot be less than 4-hour time blocks.

State your goals and what you want to learn from your field placement experience. Please be descriptive and detailed. This provides the information about you to make a successful placement match:

**List three areas of interest for field placement:**
In order to provide appropriate supervision and experience, the majority of agency placements require that you be available during weekday and daytime hours. Please plan your fall and spring schedule so that you will be available to complete all or at least three fourths (12 hours) of your field placement hours during weekday and daytime hours.

Below please state your preferred social service areas of interest in order of priority. If you are interested in a specific agency related to the area of interest write the name of the agency after your area of interest, e.g. Domestic Violence - Battered Women’s Shelter or if you just have an
area of interest write that area, e.g. Older Adults. A sincere effort will be made to place you in your area of interest, **however, your choice of agency is not guaranteed.** Please refer to page 4 of this document.

1.

2.

3.

Please provide any further information to clarify why you chose your stated preferences:

Please list any areas of social work service or a specific agency which you would **not** accept and state your reasons.

Have you ever been convicted of a Felony or a First-Degree Misdemeanor?  
No _____ Yes _____ If yes, explain on a separate page and attach to this application.

Due to a disability, will you require accommodations in your agency?  
No _____ Yes _____  

If yes, please identify needed accommodations.

**You are required to make arrangements for transportation to your field placement.** Some field placements require that students use their personal cars to carry out various assignments (not to transport clients). Please check the following that apply to you.

_____ I cannot drive an automobile.

_____ I am a licensed driver but do not have a car available to drive to my field placement.

_____ I am a licensed and insured driver, own a car and can use it in my field placement.

If you do not have a car to drive to the field agency, describe your plan for transportation.
Social Work Areas of Interest

The purpose of the list below is to assist you and the Field Director in identifying areas of social work practice that you are interested in pursuing within your senior field placement. The following list is rather broad, but not meant to be inclusive of all areas of practice. Areas can easily be combined. Use this list to help you in filling out the Application for Senior Field Placement. Feel free to use your own words (not jargon) to describe your interests in your application.

Attach your resume to this application. You will also share this resume, at the time of the interview, with the field agency and its representative as a part of the student and agency interview process. Please make sure your resume is up to date and includes your Field I Internship experience.

Attach your Field I Experience Internship Evaluation – SOCW 2010 or equivalent if transferred from another college or university. If you do not have this evaluation, please state so here. If the future, keep all evaluations as you may need them for professional interviews or applications to graduate schools.

The application will not be processed if any portion of the application is not completed and if your Resume is not attached. DEADLINE for application submission is Wednesday, March 1, 2023 for the student to begin their field placement for the semester of Fall 2023, unless otherwise specified by the BSW Field Director.

Statement of Understanding:
I (student’s name) have completed the above application form and certify that the information I have provided is complete and accurate. I also certify that I have read the BSW Field Education Manual located on the UT Social Work Website at: http://www.utoledo.edu/hhs/socialwork/undergrad_program.html. I understand the contents and agree to comply with the requirements, responsibilities, policies and procedures of the Undergraduate Social Work Program. I understand that I am required to arrange my schedule so that I will be available to complete all or at least three fourths, i.e. 12 hours, of my field hours during weekday and day time hours.

BSW FIELD PLACEMENT CONFIRMATION

The University of Toledo Social Work Program

The BSW intern is required to complete 16 hours per week during the 15 week fall semester and subsequent spring semester. The student will thus complete 224 hours per semester and a total of 448 hours for the academic year.

I, ______________________________ have interviewed ______________________________

Name of Agency Representative Name of Student

for a social work intern position at ________________________________________________.

Name of Agency

The student and I have reviewed the student’s resume and fall schedule, the social work program’s requirements, the agency’s requirements, and the learning opportunities available at this agency. As a result, the above-named student and I (please check Number 1 or 2 below):

1. _____ Agree that this is not a suitable match and therefore the student will not be fulfilling her/his field experience at this agency. The primary reasons for assessing this as an incompatible match are:

_______________________________________________________________________

_______________________________________________________________________

2. _____ Agree to the field placement match. The student is to begin his/her field experience at this agency on (date): ______________, during the 1st week of fall semester classes. The student is to report to the following person ______________________, whose phone number is ____________________ and email is __________________________.

The field instructor assigned must have a BSW or LSW or MSW and have worked at least two years post BSW degree as well as have worked for the agency for at least one year. The supervisor assigned agrees to provide one hour of weekly supervision for the student intern.

3. Please specify the days of the week and specific times of the day the student will be interning at the agency during the fall semester: __________________________________________.

4. Below please list specific requirements such as health screens, vaccinations, a criminal records check, application forms and any other specific instructions the student is to complete before beginning the internship. Please note: If the agency does not cover costs related to these requirements, the student is financially responsible for covering any costs incurred:

___________________________________________________________________________________

_________________________________________________________________________

5. If your agency requires the student to attend an agency orientation before the fall semester, please specify the date and time: __________________________________________________________.

5. The following agency representative and student agree to the above statements:

________________________________    _______   ____________________________  _____
Signature of Agency Representative            Date            Signature of Student                      Date

Field Instructor’s Comments:

____________________________________________

Field Instructor Signature:  Date:
Instructions: During the initial weeks in field agency, students are to become familiar with various aspects of agency life that could impact on an individual’s safety. Please review this form with your Field Instructor and address areas that may be of potential risk to your physical safety and health. Simply put the acronym “NA” if any items do not apply to your field experience setting. Submit the completed and signed form to your Field Liaison.

Student:

Agency:                                                                          Dates of Review:

I. Orientation

<table>

</tbody>
</table>
Does the area neighborhood present increased risks?  ☐ Yes  ☐ No

What special procedures or areas for parking, does the agency provide to increase worker safety?

If you take the bus, what safety precautions will you take?

IV. Home Visits and Outreach Activities

Have you discussed procedures for home visits and outreach activities with your field instructor?  ☐ Yes  ☐ No
Will you be expected to use your own vehicle for these visits?  ☐ Yes  ☐ No
Will you be covered under agency insurance if you are using your own vehicle to do agency related work?  ☐ Yes  ☐ No
Is your Field Instructor aware that you may not transport clients?  ☐ Yes  ☐ No
Does your agency have specific safety procedures regarding home visits and outreach activities?
- Call-in procedure  ☐ Yes  ☐ No
- Buddy system  ☐ Yes  ☐ No
- Escorts  ☐ Yes  ☐ No
- Activity Logs  ☐ Yes  ☐ No

Describe the safety procedures for home visits and outreach:

Will you be receiving any special training such as Crisis Prevention Intervention (CPI) Training? If so, please specify.  ☐ Yes  ☐ No

What are you expected to do if you find yourself in a situation with a potentially violent or threatening person?

How are high-risk neighborhoods or areas identified?

What safety practices are recommended for after-hours or evening meetings?

V. Health

Are there health risks in this setting?  ☐ Yes  ☐ No
If so, what are those risks and what precautions are you taking?

Is information and training made available on precautionary procedures
and prevention, particularly from communicable diseases or infections? □ Yes □ No

Have you read information on prevention and procedures for precautions, or viewed a video, or participated in a presentation? □ Yes □ No

VI. Reporting

Who would you contact regarding the following?

- a potentially violent client
- unsafe physical surroundings
- harassment by an agency staff person
- exposure to a communicable disease
- a practicum related injury
- assault in the agency by an unknown person
- symptoms of a practicum related illness
- harassment by your field instructor
- threatening behavior by a client in their home

VII. Overview

How would you rate the overall safety of this practicum?

□ Safe □ Somewhat safe □ Unsafe

How would you rate your own preparedness at this time to participate safely in this practicum experience?

□ Safe □ Somewhat safe □ Unsafe

Have you shared the results of this safety review with your field instructor?

□ Yes □ No

Please include any additional comments pertaining to personal safety and health risks that you want to share.
Field Instructor: Please comment and/or add information regarding the precautions taken to ensure the student’s safety in the field agency.

We have reviewed this completed form together and have addressed any noted safety concerns.

Student’s Signature: _______________________________ Date___________

Field Instructor’s Signature: _______________________________ Date _________
Student’s Name:                                                    Date:

Students requesting that their employment-site be considered for their field agency placement must complete this Request for BSW Field Placement at Place of Employment Form and submit it to the University of Toledo Social Work BSW Field Director along with the Field Placement Application Form.

It is recommended that a meeting with or draft of the request form be submitted to the BSW field director for review and suggestions before submitting the final signed request form.

Before the student submits the request form to the BSW field director, the student is to review the completed form with the following people and obtain their approval and signatures:

1) The agency administrator who has the authority to approve the employee’s internship within the agency
2) The student’s employment supervisor and
3) The student’s proposed agency field instructor who will be supervising the student.

The typed request must contain and show proof that all requirements and elements listed below will be present at the time of the student’s proposed internship at the place of employment.

Complete the following by filling in all the blanks and putting an “X” in the appropriate boxes.

1. What is the name, address, and phone number of the agency where you are requesting to complete your internship?

2. List the name and contact information of the agency representative with whom the BSW Field Director can discuss your Request for BSW Field Placement at Place of Employment.
   Name:
   Title/Position:
   Phone number:             E-mail:

3. The student must have successfully completed their probation at the proposed field agency and/or at the discretion of the field director.
   What was the start date of your employment at your agency?

4. The student’s field placement hours may coincide with the student’s employment hours. BSW Students are required to complete an average of 16 field hours per week for a total of 424 hours both fall (SOCW 4220) and spring (SOCW 4230) semesters; grand total 448 hours. The student is to complete all his/her field hours at the official agency site(s). The student is required to spend no less than 4-hour blocks of time at the internship (agency field instructor must approve if hours are less than 4).

5. A. The student’s employment supervisor and the student’s field agency instructor maybe the same person, however the 1-hour weekly field supervision hours must be separate from employment supervision time. State the name of your employment supervisor and title of his/her position in the agency and the department and/or program in which he/she works.
State the name of your proposed field agency instructor and his/her title and the department and/or program in which he/she works (must have BSW, 1 year at the agency, and 2 years experience). May be same as your employment supervisor.

B. You understand and accept that that you will be at risk of not completing your social work internship and may fail the field placement course if you are terminated as an employee by your agency and the agency also decides to discontinue your internship. (Refer to field manual for field disruptions)

☐ Yes  ☐ No

6. The student’s internship activities/assignments and employee tasks may qualify as field hours when directly linked to the nine social work competencies and level of practice.

Next to your job/role duties on your job description, please list the competency(ies) that best fits that job assignment/duty. Please attach this to this document. Appendix A for advanced MSW and Appendix B for Foundation and BSW are attached. Please reach out to the field director for assistance and guidance.

7. Your field agency and field instructor must meet the University of Toledo’s BSW program’s eligibility requirements. The field instructor assigned must have a BSW or LSW or MSW and have worked at least two years post BSW degree as well as have worked for the agency for at least one year. The supervisor assigned agrees to provide one hour of weekly supervision for the student intern.

Please provide the following information about your proposed field instructor.

Proposed field instructor’s name:

Undergraduate Degree: Undergraduate School:

If applicable: Graduate Degree: Graduate School:

If applicable: Type of Ohio Social Work License:

If applicable: Ohio Social Work License Number:

If applicable: Other Professional License information:

Number of years of social work practice experience post BSW degree:

8. Do you understand and accept that that you will be at risk of not completing your social work internship and may fail the field placement course if you are terminated as an employee by your agency and the agency also decides to discontinue your internship?

☐ Yes  ☐ No

The following attachments are required:

1. An official signed statement from the Agency Administrator or Human Resources staff stating the title of the student’s current employment position and the date of employment.

2. The agency table of organization.

3. The student’s current job description.

The above form and attachments will be reviewed by the BSW Field Director for approval. The BSW Field Director will also contact the agency representative and the student applicant to discuss this request and the decision to approve or deny this request.
The following individuals’ signatures indicate knowledge of and agreement to the content of this Request for BSW Field Placement at Place of Employment Form and the 3 attachments.

Appendix A: BSW Competencies

Competency 1: Demonstrate Ethical and Professional Behavior
a. make ethical decisions by applying the standards of the National Association of Social Workers Code of Ethics, relevant laws and regulations, models for ethical decision making, ethical conduct of research, and additional codes of ethics within the profession as appropriate to the context.
b. demonstrate professional behavior; appearance; and oral, written, and electronic communication.
c. use technology ethically and appropriately to facilitate practice outcomes; and
d. use supervision and consultation to guide professional judgment and behavior.

Competency 2: Advance Human Rights and Social, Racial, Economic, and Environmental Justice
a. advocate for human rights at the individual, family, group, organizational, and community system levels; and
b. engage in practices that advance human rights to promote social, racial, economic, and environmental justice.

Competency 3: Engage Anti-Racism, Diversity, Equity, and Inclusion (ADEI) in Practice
a. demonstrate anti-racist and anti-oppressive social work practice at the individual, family, group, organizational, community, research, and policy levels; and
b. demonstrate cultural humility by applying critical reflection, self-awareness, and self-regulation to manage the influence of bias, power, privilege, and values in working with clients and constituencies, acknowledging them as experts of their own lived experiences.

Competency 4: Engage in Practice-Informed Research and Research-Informed Practice
a. apply research findings to inform and improve practice, policy, and programs; and
b. identify ethical, culturally informed, anti-racist, and anti-oppressive strategies that address inherent biases for use in quantitative and qualitative research methods to advance the purposes of social work.

Competency 5: Engage in Policy Practice
a. use social justice, anti-racist, and anti-oppressive lenses to assess how social welfare policies affect the delivery of and access to social services; and
b. apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, racial, economic, and environmental justice.

Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities
a. apply knowledge of human behavior and person-in-environment, as well as interprofessional conceptual frameworks, to engage with clients and constituencies; and
b. use empathy, reflection, and interpersonal skills to engage in culturally responsive practice with clients and constituencies.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities
a. apply theories of human behavior and person-in-environment, as well as other culturally responsive and interprofessional conceptual frameworks, when assessing clients and constituencies; and
b. demonstrate respect for client self-determination during the assessment process by collaborating with clients and constituencies in developing a mutually agreed-upon plan.

Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities
a. engage with clients and constituencies to critically choose and implement culturally responsive, evidence-informed interventions to achieve client and constituency goals; and
b. incorporate culturally responsive methods to negotiate, mediate, and advocate with and on behalf of clients and constituencies.
Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

a. select and use culturally responsive methods for evaluation of outcomes; and
b. critically analyze outcomes and apply evaluation findings to improve practice effectiveness with individuals, families, groups, organizations, and communities.
Social Work Student Field Incident Report

Please complete this form for any incident which is of concern to the student, and which occurred during the student’s internship hours or is directly related to the student’s internship.

<table>
<thead>
<tr>
<th>Date of Report:</th>
<th>Phone Number:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Name of Student:</td>
<td>Address:</td>

One hour of weekly supervision is scheduled for: ______________________ (Day of Week) at ______________________ (Time)
Terms of Field Education Plan and Evaluation

Agency Responsibilities:
The field instructor, acting on behalf of the agency, agrees to:

1. Provide the field student with a thorough orientation of the agency, including the agency’s history, mission, organizational structure, funding, services, strategic planning, policy development and policies and regulations, as they pertain to personnel and interns, the delivery of services and responsibilities to clients and the agency.

2. Provide the field student with specific and ongoing safety procedures related to personal health and safety risks that may be encountered during the internship. The field instructor must also assess the student’s understanding of safety matters and their ability to handle threatening situations in a mature and professional manner. The field instructor is to be knowledgeable and agree to the “Policy Related to Safety of Students in Field Placement”.

3. Ensure that the field student is knowledgeable and understands their rights and responsibilities as an intern at the agency.

4. Guide the field student in comporting thenself according to the values and ethical standards of the NASW Code of Ethics.

5. Provide equipment and clerical assistance necessary to carry out assigned tasks. This may include a desk, telephone, community resources directory, and map.

6. Provide a weekly scheduled one-hour supervision meeting.

7. Not require the student to be in field during the University of Toledo breaks, and holidays. The student is not to be in field placement between fall and spring semesters. Listed below are the dates of the University of Toledo’s fall and spring breaks and holidays.

<table>
<thead>
<tr>

<td></td>
<td></td>
</tr>
</tbody>
</table>

8. Provide guidance and information to the student necessary for the student to complete the BSW Field Education Plan.

9. Monitor and verify by signature that the student has completed 224 hours at the agency at the end of the fall and spring semester.

10. Review the student’s daily field activity log on a weekly basis and verify by signature that the student has completed 16 hours per week.

11. Approve the student’s weekly schedule and approve in writing any changes in that schedule. This is necessary in order to ensure liability insurance coverage of the student’s activities at the agency. The liability insurance is provided by the University of Toledo.

12. Complete the student’s field experience evaluation at the end of the fall and spring semesters.
### Student Responsibilities:

The social work student agrees to:

1. Be at the field agency sixteen hours per week for a total of 224 hours per semester, according to the schedule on demographic/data sheet and approved by the field instructor.

2. Be responsible to the field instructor from whom the student is to take assignments, direction, and supervision.

3. Sign in and out of the agency accurately and according to agency policy.

4. Notify the field instructor and the agency of illness or circumstances creating tardiness or absence, follow procedures required of staff members and to make arrangements with the field instructor to make up missed hours.

5. Abide by other regulations pertaining to agency staff, dress code, professional conduct, and the handling of records. (Students are not to take records home.)

6. Operate within the policies and procedures of the field placement site and the social work program.

7. Share the Field Experience and Field Lab syllabi and specified assignments with the field instructor and complete the requirements of the Field Experience courses as outlined in the syllabi each semester.

8. Demonstrate knowledge of the agency; including the agency’s history, mission, organizational structure, funding, services, strategic planning, policy development and policies and regulations, as they pertain to personnel and interns, the delivery of services and responsibilities to clients and the agency.

9. Attend staff meetings, board meetings, and other agency meetings when appropriate.

10. Demonstrate accurate and effective writing skills by following agency guidelines for timeliness and content when completing documentation.

11. Be prepared and organized for and actively engaged in supervision and follow through with supervisor’s directives.

12. Take a proactive role in fulfilling responsibilities and expectations of the field experience and field plan.

13. Follow the State of Ohio Counselor, Social Worker & Marriage and Family Therapist Board Chapter 4757-5 Rules for Standards of Ethical and Professional Conduct [here](http://cswmft.ohio.gov/ethics.stm) and the NASW and Ohio Social Work Code of Ethics with particular emphasis on maintaining client confidentiality, required record keeping and appropriate professional boundaries.
Statement of the Purpose of the Field Experience Education Plan and Evaluation

The Council on Social Work Education (CSWE) Policy and Accreditation Standards require that BSW students attain mastery of Nine Social Work Core Competencies and their corresponding Practice Behaviors. “Social work competence is the ability to integrate and apply social work knowledge, values, and skills to practice situations in a purposeful, intentional, and professional manner to promote human and community well-being” (EPAS, 2015). The student’s entry level mastery of the CSWE Nine Social Work Core Competencies and practice behaviors are to be exhibited and evaluated in the field experience setting. The competencies and accompanying practice behaviors comprise the Field Experience Education Plan and Evaluation for the BSW field student. The Competencies and Practice Behaviors are to be evaluated by the field supervisor at the end of each semester.

Procedure for Completing the Field Experience Education Plan:

The field student with the guidance of the field instructor and field liaison are to use this document to identify primary learning activities, assignments, and projects that will assist the student in achieving and demonstrating that they have mastered the Nine Social Work Core Competencies and corresponding Practice Behaviors as an entry level social worker. The Field Experience Education Plan is to be developed during the first few weeks of the internship and will be fulfilled by the student throughout the duration of the internship. It is understandable that during the first weeks of the fall semester the student may not be able to identify all possible learning activities to be accomplished during the fall and spring semester. Therefore, the student will be able to add activities and make revisions at the beginning of the spring semester.

Procedure for Completing the Evaluation of the Social Work Field Student:

The field instructor will assess the student’s performance and competency level near the end of each semester. Since the evaluation content remains essentially the same during the fall and spring semesters, beginning performance may not reach the higher numbers on the 1 to 5 evaluation scale during the fall semester. During the fall semester, low evaluations in selected areas are acceptable and expected. Because of this expectation, the fall semester experience is graded as a Pass or No Credit course. To pass, the student must perform at a C or better level. The student must also complete 224 hours of field experience by the end of each semester in order to pass the course.

1. At the end of each semester the field liaison will meet with the field instructor and field student to review the student’s progress in the Field Experience Education Plan along with the field instructor’s evaluation of the student’s achievement of the competencies and practice behaviors.
2. The student is to submit the document to the field instructor in electronic format, with the status of each learning activity rated. Please allow sufficient time for the field instructor to complete the evaluation sections of the document prior to meeting with the field liaison.
3. The evaluation scoring and comments for the fall and spring semesters are to be completed by the field instructor and reviewed with the field student before the field visit with the field liaison.
4. In the fall semester this meeting will serve as a collaborative effort to address the student’s strengths and learning needs in order to help the student prepare for a successful spring semester internship.
5. Additions and revisions to the field plan that will help improve and enhance the students' learning during the spring semester can be discussed during the fall field evaluation meeting.
6. The final grade will be determined by the field liaison.
### Learning Activity Scoring Key

Students are to complete the status of each learning activity prior to giving the plan to the field instructor for completion of the evaluation component.

Use the following to rate the status of each learning activity:

<table>
<thead>
<tr>
<th>Fall Semester:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Complete (C)</strong> – The learning was completed and will not be performed again.</td>
<td>[ ]</td>
</tr>
<tr>
<td><strong>Ongoing (O)</strong> – The learning activity is in process and will continue during spring semester.</td>
<td>[ ]</td>
</tr>
<tr>
<td><strong>Incomplete (I)</strong> – The learning activity was not completed even though there was opportunity for it to take place.</td>
<td>[ ]</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Spring Semester:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Complete (C)</strong> – The learning activity was completed.</td>
<td>[ ]</td>
</tr>
<tr>
<td><strong>No Opportunity (NO)</strong> – There was no opportunity for the learning activity to take place.</td>
<td>[ ]</td>
</tr>
<tr>
<td><strong>Incomplete (I)</strong> – The learning activity was not competed even though there was opportunity for it to take place.</td>
<td>[ ]</td>
</tr>
</tbody>
</table>

### Evaluation Scoring Key

Use the following to evaluate the field student mastery of the Nine Social Work Core Competencies and their corresponding Practice Behaviors

<table>
<thead>
<tr>
<th>5</th>
<th>The field student has demonstrated mastery of this competency area for a beginning social worker.</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>The field student has demonstrated above average skill in this area, and it is an integral part of the student’s practice</td>
</tr>
<tr>
<td>3</td>
<td>The field student has demonstrated an adequate level of competency in this practice behavior by gaining experience and meeting expectations.</td>
</tr>
<tr>
<td>2</td>
<td>The field student must consciously work at this skill and has not yet achieved an adequate level of competency in the area but appears motivated to continue to focus and potentially meet the expectations within the timeframe of this placement.</td>
</tr>
<tr>
<td>1</td>
<td>The field student has not demonstrated skill in this competency area and is unlikely to meet expectations in the near future despite learning opportunities.</td>
</tr>
<tr>
<td>NA</td>

Proposed Internship Hours to be completed between the semester break from December 17\textsuperscript{th}, 2022 through January 16\textsuperscript{th} 2023. Interning over the break is completely optional. If a student chooses to intern over the break, the student will still be required to attend their internship for 14 weeks during spring semester, 2023. It is also important to remember to have a break and implement self-care so you are rejuvenated for the spring semester.
