

BYOD – Mobility Print – iMac

1. Connect to Wi-Fi networks Eduroam or UTGuest.
2. At the top left, select the Apple logo and open “System Preferences”.
3. Select “Printers and Scanners”.
4. Select the + button at the lower left to add a new printer.
5. Select “UniversityPrinter”.
6. The printer will now be added to your iMac.

7. After you print the first time, you will be prompted to enter in your UTAD username (i.e. jsmit5) and password. You can choose to save these credentials to your keychain to prevent further popups.
