4 Open your institution e-mail account, and then follow the instructions to download the app and begin using VisualDx Mobile.

VisualDx
visual diagnostic decision support

Thank you for registering to use VisualDx Mobile. It is our goal to provide you with a quality solution to meet your clinical and patient care needs.

To begin using VisualDx Mobile you will first need to download the app to your device:

APPLE Devices: Download VisualDx Mobile from the App Store

ANDROID Devices: Download VisualDx Mobile from the Market

Once launched, VisualDx Mobile will prompt you to enter the username and password provided below.

User Name: customer@logicalimages.com
Password: abc23456

If you have any questions or issues during this process, please feel free to contact our customer support at:

1.800.357.7611 option 5 or online_support@logicalimages.com

Thank you for your business and welcome to VisualDx Mobile!

Sincerely,
The VisualDx Team

VisualDx — see, learn, discern to more accurately diagnose disease
Logical Images, Inc. | 3443 Winton Place, Suite 240 | Rochester, NY 14623 | 800.357.7611 | www.visualdx.com
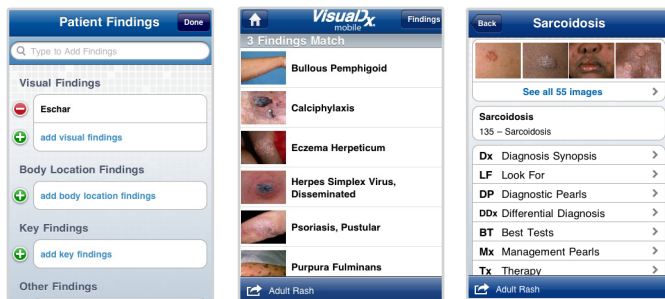

VisualDx mobile ®

Try it Now!

Start by entering your user name and password. If you do not have a user name and password, follow the instructions on the back of this page. Once you log in to VisualDx Mobile, select *Differential Builder* or *Diagnosis Lookup* to begin.
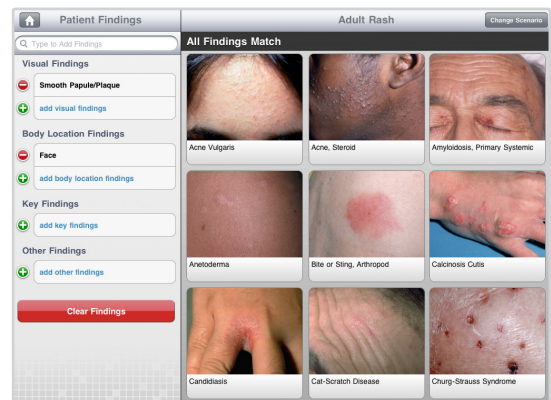

Use VisualDx Mobile to visually validate a diagnosis, look up next steps for management and patient care, see the differential as you enter patient findings, and provide on-th-spot patient education with real images a patient can relate to.

Thousands of images, disease management, therapy, and more – all in just seconds.

VisualDx Mobile is the only medical app to show disease variation with multiple images of each disease. For each diagnosis you can:

- View a gallery of images varying in age, skin type, and severity.
- View a high-resolution version of any image.
- Zoom in or out of an image for a close-up of a specific area.

- Review associated clinical information including What To Look For, Differential Diagnosis & Pitfalls, Best Tests, Management Pearls, Therapy, and more.
