Anatomical Donation Program

The University of Toledo College of Medicine faculty, student learners and staff have gratitude for your inquiry and interest in the **Anatomical Donation Program**. The educational pathway and pillar of a student's journey through medical school is the opportunity to learn of the human body in the advance the learning of students at all stage of their academic and professional career. This indispensable gift strengthens the education of medical students, postgraduate physicians and student of related disciplines.

FAQ

Q: Who Can Donate?

A: Any person of sound mind who is at least 18 years of age.

- 1. First-Party Donations (self-donation):** The Program primarily accepts applications that are initiated and completed by the donor.
- 2. Second-Party Donations (initiated by an individual other than the donor):** The Program may accept a donation initiated by an attorney-in-fact (i.e., person who has legally been given Power of Attorney) for the donor who signs donation papers during the donor's life. Alternately, a spouse, child, and parent can make a donation after death.
- 3. Communicable Diseases:** Any individual diagnosed to have a communicable disease (e.g., Hepatitis B, Hepatitis C, HIV, and MRSA) is not eligible for donation to the Program.
- 4. Weight Limitation:** The Program reserves the right to refuse donations of individuals who exceed 250 lbs. in weight at the time of death. Please be aware that it is possible that at the time of death that your donation maybe refused under the guidance of the staff who prepares and cares for each donor.

Autopsy: If the Coroner requires an autopsy, the Program will still accept the donation. If the donor is not cannot be used for educational or scientific purposes, the donor will be cremated immediately. If a party other than the Coroner requests an autopsy, the Program may not accept the donation.

Q: Can I Donate My Body AND Be An Organ Donor?

A: Yes. The Program considers donation of vital organs to be life-saving gifts. We will accept the donated body of a donor after viable organ(s) have been collected for transplantation.

Q: Can I Change My Mind?

A: Yes. You reserve the right to cancel at any time by a phone call or letter to the Anatomical Donation Program. The program forms that are completed, at the time of donation will be removed from the donor files and destroyed.

Q. Is There A Cost For Donation?

A: Yes. Although body donation is an act of selfless concern for the advancement of medicine and science, there are associated costs that make it necessary for the University to require a non-refundable \$100.00 fee. This fee provides for partial recovery of administrative and cremation services. Please enclose with your application a check or money order addressed to The University of Toledo, Department of Medical Education.

Q. What Happens At The Time Of Death?

A: At the time of your death, the person or institution in charge of your body should call The University of Toledo at **(419) 383-4109** for permission to have the remains accepted by the Program. If accepted, the body should be transported to the Health Sciences Campus of The University of Toledo.

Q. Who Pays The Cost Of Transportation?

A: The Program does not cover the cost for the transportation of the donated body to the Health Sciences Campus of The University of Toledo. Your estate or family is responsible for arranging for proper transportation of the donor to the University. Please call the Program for information about preferred providers for this service.

Q. Can My Remains Be Viewed At The Program Facility?

A: No. The Program facility is a restricted area and is not a venue for family viewing. Arrangements for a viewing must be done in advance with the funeral home of your choice prior to transporting the body to the Program.

Q: How Are Donated Bodies Used?

A: Anatomical donations are used for education and/or research at the University of Toledo and *other educational and health care institutions.

***Please note** that the other academic institutions use these donations under the same guidelines of care, respect and integrity. The University of Toledo will receive the remains when the host institution has completed their use for student learning.

A donated body will be used by the Program and others in a manner to be determined exclusively by the Program, pursuant to the policies and procedures that are in effect at the time of the donor's death or as they may be revised thereafter. When making a donation, the donor, their survivors and/or responsible parties cannot designate the use(s) to which the body will be put nor the persons or entities that will use the same.

Q: Will My Family Receive A Report Of Medical Findings, Cause Of Death, Or Details Of The Specific Studies?

A: No. We do not provide any reports of pathological findings, cause of death, or details of specific studies.

Q: What Happens When The Studies Of The Body Are Completed?

A: Upon completion of the use of the body, the Program will arrange for the remains to be cremated. After cremation, there are **two options**:

1. The Representative designated by the Donor on the Disposition Authorization Form will be notified by Certified Mail that the cremated remains (known as **"cremains"**) may be picked up at the Program office.
2. If the Donor does not designate a Representative, the Program will arrange for the cremains to be interred in the University's communal memorial plot at the Historic Woodlawn Cemetery in Toledo, Ohio.

Q: How Long Will It Be Before My Family Receives the Cremains?

A: The Program reserves the right to use the donated bodies for up to 3 years.

Q: What Happens To My Donation If I Move Away From The Toledo/Northwest Ohio Area, Or Expire Out State?

A: If you pass away at a further distance from the University, you may still have the body transported to the Program. However, you or your family/estate may transfer your donation to another Program/medical school in your new area. Please call the Program and we will be happy to assist you or your family in this process.

Q: Are There Any Alternatives To Cremation?

A: Yes. In addition to cremation, an option for the donor may be in having their entire body preserved through a process called **plastination**. This is a process, which the body remains as a permanent model for educational purposes. If this is the donor's desire and the University agrees to plastinate, such consent may be withheld for any reason, **the body will NOT be cremated, and will not be returned to the family.** Additional information outlining the details are described in a separate document.

Q: Is There an Annual Memorial Service

A: Yes. Students, clinicians, and researchers who have had the opportunity to learn from the donations hold an annual memorial service. All donors who passed in the previous calendar year will be recognized on this special occasion. Families and friends of the Donors are invited to attend.

Q: How Can I Get More Information?

A: All inquiries concerning the Program should be directed to Diane Durliat:

Phone: (419) 383-4109

Email: bodydonation@utoledo.edu

THE UNIVERSITY OF TOLEDO

Application Process

Registering as a Body Donor. To register for the Anatomical Donation Program a properly completed application **must be returned** to The University of Toledo, Department of Medical Education. Some forms require signature by witnesses (individuals 18 years or older **AND** who are non-family members; they also cannot be either students or employees of The University of Toledo).

To register as a Donor, **please** return the following in the envelope provided or to the address noted below to the Department of Medical Education:

- Authorization for Anatomical Donation.** This form requires two witnesses. A Notary Public can also notarize this form.
- Medical Record Release.** This form authorizes the release of your medical records after death. These records are important for education and scientific purposes.
- Vital Statistics Sheet.** The information requested on this sheet is used by the University to complete the Death Certificate. This document must be completed as fully as possible.
- Cremation and Disposition Authorization.** This form provides information about your wishes for the final disposition of your donated body. Besides signing to acknowledge your understanding of this process, you also need to identify how you wish your cremated remains to be handled. This form requires two witnesses; a Notary Public can also notarize this form.
- Check or money order for \$100 (payable to The University of Toledo, Department of Medical Education).*

Please feel welcome to call the Program at (419) 383-4109 with questions or for assistance in completing the forms. All information provided will remain confidential to the extent allowed by law.

When the completed application is returned to the Department of Medical Education, you will receive copies for your personal records and a wallet-sized Donor Card. The Donor Card, which should be carried at all times in your wallet or purse furnishes information on your donation intent and will assist in contacting the Program at the time of Death.

- *All forms must be completed and returned to the Department of Medical Education at least one calendar week prior to the Donor's death.*

The University of Toledo, College of Medicine will process the legal forms that are to be provided to the local registrar for vital statistics (e.g. Death Certificate, Notification to Social Security).

THE UNIVERSITY OF TOLEDO

Authorization Form for Anatomical Donation

Mr., Mrs., Ms. _____

(Print or type full legal name of Donor)

I, the Donor, being eighteen years of age or older and of sound mind, with the intention of helping others, do hereby willfully and voluntarily make an anatomical gift of my body to take effect upon my death. This gift is made to the Anatomical Donation Program (hereafter referred to as the "**Program**") of The University of Toledo (hereafter referred to as the "**University**"), which is located in the Department of Medical Education, 3000 Arlington Avenue, Toledo, OH 43614-5804. I reserve the right to void this donation at any time through written notification to the University.

I understand that, through this donation, my body will not be available for any public or private memorial or funeral service at the time of my death, because my body will need to be transported immediately to The University of Toledo, College of Medicine and Life Sciences. I also understand that bodies may not be suitable for education or research following an autopsy. However, if an autopsy is required by the Coroner or requested by the family, the Program may still accept my remains if it is determined that it would still be useful for education or research. If they are not useful for educational or scientific purposes, they may be cremated immediately.

I direct that immediately following my death, the person or institution in charge of my body notify the Program at the University by telephone (419-383-4109 or 419-383-3770) in order to carry out this gift.

The exact use of my anatomical gift will be at the discretion of the University. I understand that my body may be used for education or research at the University, or at other educational and health care institutions. The University reserves the right to retain tissues and organs of interest for educational and/or research purposes. I further understand that the University may also use my anatomical gift in the development and distribution of educational media/products that may have a commercial value, to which I agree to give up all rights that may be claimed by my estate and heirs.

I understand that after the University has finished using my donated body for education or research, it will be cremated. I will read and sign the Cremation and Disposition Authorization Form. On the Cremation and Disposition Authorization Form, I will express my wishes as to how my cremated remains will be handled.

Medical Records Release From

I, _____ (“Donor”), have made a gift of my body to The University of Toledo (hereafter referred to as the “**University**”), College of Medicine and Life Sciences for use by the University for education and research.

In order to increase the education and research value of this gift after my death, I authorize and request any hospital or institution in which I was a patient at any time within two years prior to my death, and any physician who at any time attended me within two years prior to my death, to furnish any and all records concerning my case history, treatment, and examination that I may have received. These records should be sent to:

Diane Durliat

Manager of Programs, Anatomical Donation Program Department of
Medical Education
University of Toledo College of Medicine
Mail Stop #1007
3000 Arlington Avenue
Toledo, Ohio 43614-5804

I release, on behalf of my heirs and estate, any such physician, hospital or institution from all responsibility or liability that may arise from complying with this authorization.

THE UNIVERSITY OF TOLEDO

Cremation & Disposition Authorization Form

The State of Ohio requires that this authorization form be completed and signed prior to the cremation. Your body, which you are donating to The University of Toledo (hereafter referred to as the “**University**”) will be cremated after the University has completed its educational or research use. Cremation is an irreversible and final process.

It is important that you understand the cremation process as described in the authorization form prior to signing it. We will be happy to answer any questions about the cremation process or any other information in this form.

If you decided to authorize plastination of your entire body please complete this form.

THE CREMATION PROCESS

Cremation is performed at a licensed crematory and is done to prepare the Donor’s remains for final disposition. The process consists of placing the Donor’s remains in a cremation chamber where they are subjected to intense heat and flame. Only bone fragments and some fine metals remain after cremation. Any metallic substances will be disposed of by the crematory in a non-recoverable manner so that only bone fragments remain. Following a cooling period, the cremated remains are gathered from the cremation chamber. Although reasonable efforts are made to remove all of the cremated remains from the chamber, it is impossible to remove all of them, as some dust and other residues from the process will be left behind. Due to the repeated use of the chamber, a small amount of mixing with remains from previous cremations is a possibility, and you need to understand and accept this fact in order to authorize the cremation. The skeletal remains often will contain recognizable bone fragments. These fragments will be mechanically pulverized which may cause incidental mixing with the residue from previously pulverized remains. It is impossible to recover all of the dust and residue from the cremation and processing. The collected remains of a Donor, which are virtually unrecognizable as human remains, will be placed into a designated container.

Please read the following statements carefully:

- 1. Do you have a pacemaker, defibrillator, radioactive device, or other electronic device implanted in your body at this time?**

Yes

No (check one)

If you answered **YES** above, please describe the device:

2. I understand that the Anatomical Donation Program will attempt to collect personal property that arrives with my body and will contact my appointed Representative for retrieval of such personal property. Please note that if you're appointed Representatives has failed to arrange to pick up personal property within sixty (60) days after being mailed a notice by certified mail, The University of Toledo, College of Medicine and Life Sciences will transfer the personal property to the Office of Risk Management of The University of Toledo Hospital for disposition.

If my body has an autopsy: I understand further that the Anatomical Donation Program will **not** collect personal property that arrive with my body following an autopsy and that my body will be cremated with such personal effects.

3. I understand that the crematory is to cremate my remains together with the container supplied by the University in which my remains are delivered to the crematory.
4. I understand that my remains will be cremated alone and not with the remains of any other Donors.
5. I understand that no person other than crematory personnel may be present in the holding room or cremation room prior to or during cremation, or during the removal of my cremated remains from the chamber.
6. I understand that after my remains are cremated, the cremated remains will be processed and pulverized according to the practice of the crematory. Such processing includes removing and discarding foreign matter (especially metal from dental work, prostheses or containers) that remains after cremation. Some small pieces, however, may escape human detection and be included in the cremated remains.
7. I understand that although the crematory will take reasonable efforts to remove all of my cremated remains from the cremation chamber, it is impossible to remove all of them.
8. The Department of Neurosciences at The University of Toledo, College of Medicine and Life Sciences is authorized to receive my cremated remains from the crematory. The cremated remains will be in a temporary container. My appointed Representatives (listed below) will receive notification by certified mail when the cremated remains are available. Alternatively, if I select, my cremated remains will be buried in the University's communal memorial plot for Donors at the Historic Woodlawn Cemetery in Toledo, Ohio.

Please indicate your choice with your initials and information requested

Initial _____	Cremaains to be received by this First Representative:	
Name	Relationship	
Address		Phone
Second Representative (if First Representative becomes disqualified or is not available):		
Name	Relationship	
Address		Phone
I request the following instructions be given to my Representative with respect to how my cremaains are to be handled:		

OR

Initial _____	Cremaains to be buried in the University's communal memorial plot for donors at the Historic Woodlawn Cemetery, Toledo, Ohio	
------------------	---	--

If your indicated Representatives above, but they are not available, The University of Toledo Anatomical Donation Program will assign the right of disposition to the following adults, if they can be located with reasonable effort, in the priority listed in section 2108.81 of the Ohio Revised Code as follows:

- Donor's spouse
- Donor's adult child (if there is more than one child, all of them collectively)
- Donor's parent(s)
- Donor's adult sibling, whether of whole or half-blood (if there is more than one sibling, all of them collectively)
- Donor's grandparent(s)
- Donor's guardian
- Any person willing to assume the right of disposition.

PLEASE NOTE: *if your appointed Representatives has failed to arrange to pick up your cremated remains within sixty (60) days after being mailed a notice by certified mail, The University of Toledo is permitted to place them in the University's communal memorial plot for donors at Historic Woodlawn Cemetery in Toledo, Ohio.*

SIGNATURES. I, the Donor, being 18-years-of-age or older and of sound mind, do willfully and voluntarily sign this Cremation and Disposition Authorization. I understand that all decisions made by my Representative, if I so appointed one on the previous page, with respect to the right of disposition of my cremains is binding. If the First Representative should become disqualified due to their prior death, resignation or refusal to act, inability to be located or as otherwise described in section 2108.75 of the Ohio Revised Code, then the Successor Representative will serve in this capacity. This authorization becomes effective upon my death and revokes any prior decisions I have made regarding cremation and disposition. No person who acts according to the Cremation and Disposition Authorization will be liable for damages of any kind associated with the person's carrying out this Authorization.
