Faculty and Resident Resources

Recommended Text Book for Pediatric Clerkship:

Board Review Series (BRS) for PEDS - can be checked out from Clerkship Office during the Pediatric Clerkship and must be returned the last day of Clerkship. No grade will be given until the book has been returned. If it is lost or damaged, a fee will be charged for replacement.

Blue Prints Pediatrics
Each Educational Lead for each department was given a copy of Blue Prints Pediatrics to help use as a resource and guide for the material that an M3 is expected to learn in a Pediatric clerkship.

MEDED (Evaluations)
Go to https://meded.utoledo.edu/ to complete online evaluations for medical students. If you need additional instructions on how to fill out evaluations please email Tyrone.Layson@utoledo.edu

Curriculum

Electronic Resources

• Harriet Lane Handbook, by the John Hopkins Hospital. Available through Clinical Key
• Nelson’s Essentials of Pediatrics – primary textbook for medical students rotating through pediatrics. Available electronically through Clinical Key
• Nelson Textbook of Pediatrics – a source of general information and could be used to prepare assigned patient presentations. Available electronically through Clinical Key

Recommended Resources

Online Resources

• Bates’ Visual Guide to Physical Examination: (This online reference has videos demonstrating key physical exam components for infants and children)

• Guide to the Newborn: [http://med.stanford.edu/newborns.html](http://med.stanford.edu/newborns.html) - (follow the student tab)
  o Examining the Newborn: [http://med.stanford.edu/newborns/clinical-rotations/students/students-newborn-exam.html](http://med.stanford.edu/newborns/clinical-rotations/students/students-newborn-exam.html)
  o Aquifer PEDS Cases 1 & 8 (Need Aquifer Sign in)

Smart Phone Resources

• Pedscripts App: Download "Pedscript" app through your phone's app store (Currently only available on iPhones). Pass code for access is "Peds"
• Developmental Milestones: [https://www.meduapp.com/resources/child_dev](https://www.meduapp.com/resources/child_dev) (Need Aquifer Sign in)
  o Use this link to access video clips (2 to 8 seconds each) to explore how children acquire (motor, cognitive, and language) skills from birth to age 5 years. Test your own knowledge of the milestones typically used by clinicians to assess a child’s development and know when to refer for further evaluation for possible delay. This is great tool to use while on ambulatory rotation.
• Quizlet: [https://quizlet.com/](https://quizlet.com/)
  o Search “JeffreyMooreMD” in search box

Aquifer Access:
Aquifer [https://www.meduapp.com/users/sign_in](https://www.meduapp.com/users/sign_in)

Aquifer (previously CLIPP) virtual patient case program is for the Pediatric Clerkship. Aquifer's 32 interactive virtual patient cases are designed to encompass the learning objective of the Council on Medical Students in Pediatrics (COMSEP) curriculum comprehensively. Aquifer, used mostly by third year medical students. Listed below are the instructions to register for Aquifer virtual cases. Please complete registration before the start of your first day at your clinical site.

1. Go to [https://www.meduapp.com/users/sign_in](https://www.meduapp.com/users/sign_in)
2. Click on the "Need access OR Forgot your password?" link
3. Type in your institution email address into the Email box
4. Click "send me instructions to set my password" button
5. An email will be sent to you. Follow the instructions in the email to setup your account
