

Title of Clerkship: **Medical Intensive Care Unit Acting Internship – St. Joseph’s Mercy Hospital**

Elective Year(s): Fourth-Year

Department: Internal Medicine

Type of Elective: Clinical ✓ Non-Clinical/Research ___ Basic Science ___

Clerkship Site: St. Joseph’s Mercy Hospital

Course Number: MEDI723

Blocks Available: All

Number of Students per Block: Varies

Faculty: Varies

Elective Description / Requirements: Students serving as acting interns will function in the role of a primary physician for a small number of patients. The resident on the medical service as well as the attending physician will supervise the student. Students will perform all duties expected of an intern on an internal medicine service including performing the initial history and physical and written admitting orders, progress notes and discharge summaries. A didactic and bedside lecture course focused toward the pathophysiology and clinical assessment of all organ systems as they pertain to critically ill patients will be presented. Student management of critically ill patients will emphasize the pathophysiology, assessment and management of respiratory failure (including interpretation of EKG’s and the use of mechanical ventilation), the pathophysiology and management of shock and multiple organ failure syndrome (including the use and interpretation of invasive hemodynamic monitoring), and nutritional support of the critically ill.

Length of Clerkship: 4 weeks

Links to Core Competencies Educational Course Objectives

After completing the rotation, the student will be able to:

PC-1; PC-3 Interview patients and review pertinent medical records collecting data concerning the patients’ presenting problems

PC-2 Perform a complete or focused physical examination as appropriate and distinguish normal from abnormal findings

PC-8 Synthesize information to develop a reasonable differential diagnosis and be prepared to present to a preceptor

PC-8 Following an assessment of all assigned patients, students will describe the chief problems and a plan for treatment
