

Title of Clerkship: Emergency Medicine –SAHEC - Wood County  
Elective Type: Fourth-Year Elective  
Department: Emergency Medicine  
Clerkship Site: Wood County Hospital  
Course ID: ERMD710  
Blocks available: All  
Number of students per block: 1  
Faculty: Dr. Sarsour  
Elective Description/ Requirements: Students will evaluate and manage Emergency Department (ED) patients under the direct supervision of the EM Faculty. Students will perform histories and physical examinations, document findings in the medical record, order appropriate diagnostic and therapeutic interventions, assess response to therapy, and determine appropriate patient dispositions. Students will conduct follow-up communications with select patients to assess short-term response to therapy, ensure follow-up instructions are being followed, and assist with any problems under guidance of the ED faculty and staff. Students will complete 120 clinical hours in the ED.

Length of Clerkship: 4 weeks

Links to Educational Program Objectives: Educational Course Objectives:

At the conclusion of this elective, students should be able to:

<u>PC1, PC2</u>	Perform histories and physical examinations on a wide variety of patients with variable acuities
<u>PC1, PC2</u>	Demonstrate and document an accurate history and physical examination
