

Dear Curriculum Retreat Attendees,

You are receiving this message because you have rsvp'd for the 2016 College of Medicine & Life Sciences Curriculum Retreat. Please see below correspondence from Dr. Justin Kreuter, one of our morning presenters.

Hello, my name is Justin Kreuter and I'll be coaching a session at your Annual Curriculum Retreat this Friday with Doug Danforth. The session will focus on incorporating technology into the flipped classroom. ***This will be a flipped session***, so please:

1. watch this introductory video (<https://spark.adobe.com/video/IHgn4Bx9yzkHU>)
2. review the two attached papers
3. then click here (<https://goo.gl/forms/JNrCjZOKkXYL5DYh1>) to answer 2 brief questions and document completion of this assignment.

It will take approximately 30 minutes to complete this assignment. Note, if you have difficulty watching the video, please try a different web browser (for me it worked in Internet Explorer, but not Google Chrome).

Thanks in advance for completing this assignment prior to our session Friday morning.

Justin
