

**Desired Major(s):**

Pharmacology/Toxicology, Pharmaceutics, Biology, Pharmaceutical Sciences, Medicinal Chemistry, Medical Technology, Chemistry

**Formulations Scientist**

Employer: Charles River Laboratories

**Description:** For nearly 70 years, Charles River employees have worked together to assist in the discovery, development and safe manufacture of new drug therapies. When you join our family, you will have a significant impact on the health and well-being of people across the globe. Whether your background is in life sciences, finance, IT, sales or another area, your skills will play an important role in the work we perform. In return, we'll help you build a career that you can feel passionate about.

**Job Summary:** Performs technical laboratory activities in support of client studies or procedures. Performs analysis of data for quality and completeness and determines if results are as expected. Records data in compliance with company and regulatory policies and standards to meet quality and accuracy requirements.

We are seeking an experienced Formulations Technician for our Safety Assessment site located in Ashland, Ohio.

Responsible for preparation of test materials and dietary admixtures for dose administration, as well as, inventory and final disposition of test materials.

The following are minimum requirements related to the Formulations Technician position

**Education:** High school diploma or General Equivalent Degree (G.E.D.). Bachelor's preferred (B.S) or equivalent in animal or life science or related discipline.

**Experience:** 6 months to 1-year related experience in animal research and/or husbandry or must have fully satisfied technical and experience requirements for the previous level. An equivalent combination of education and experience may be accepted as a satisfactory substitute for the specific education and experience listed above.

**About Corporate Functions:** The Corporate Functions provide operational support across Charles River in areas such as Human Resources, Finance, IT, Legal, Sales, Quality Assurance, Marketing, and Corporate Development. They partner with their colleagues across the company to develop and drive strategies and to set global standards. The functions are essential to providing a bridge between strategic vision and operational readiness, to ensure ongoing functional innovation and capability improvement

**Qualifications:** 6 months to 1 year related experience in animal research and/or husbandry or must have fully satisfied technical and experience requirements for the previous level.

Location: Ashland, OH
