

General Chemistry II

The University of Toledo
College of Natural Sciences and Mathematics
Department of Chemistry and Biochemistry
CHEM1240 Sections 001-012, 089

Instructor: Dr. Andy Jorgensen
Email: andy.jorgensen@utoledo.edu
Office Hours: MWF 9:30-10:30, MF 2:00-3:00

Course Website: [Blackboard Learn](https://blackboard.utoledo.edu/webapps/login/) or
<https://blackboard.utoledo.edu/webapps/login/>

Office Location: BO1096F
Instructor Phone: 419-530-4579
Offered: Spring, 2022

Class Location: WO1201
Class Day/Time: MWF 8:30-9:25 AM
Credit Hours: 4

CATALOG/COURSE DESCRIPTION

An introduction to solutions, equilibrium, acid-base theory, energy relationships and structural concepts. This sequence is for students who major in science, engineering or other fields which require chemistry as a prerequisite subject. Three hours lecture and one hour discussion per week.

COURSE OVERVIEW

CHEM1240 is the second course in the General Chemistry sequence. CHEM 1290 is the appropriate lab course to go with CHEM 1240. This sequence is intended for majors in the natural sciences, science education, pharmacy, chemical engineering or bioengineering, and allied health fields.

STUDENT LEARNING OUTCOMES

1. Predict properties of substances based on structure including the relative strengths of acids and bases.
2. Apply equations to solve for thermodynamic and kinetic quantities (Clausius–Clapeyron, Arrhenius, Nernst, and Gibbs Free energy equations).
3. Create and interpret heat curves, phase diagrams, and titration curves.
4. Identify the arrangements in crystalline solids and cubic unit cells.
5. Predict the properties of solutions (colligative properties) of known and unknown solutes including concentrations in various units (mole fraction, mass percent, molarity, molality, ppm, ppb).
6. Determine the reaction order using rate-laws, integrated rate laws, graphs, and half-lives.
7. Interpret reaction mechanisms including potential energy diagrams.
8. Predict and describe characteristics of a reaction at chemical equilibrium and solve for concentrations or partial pressures of products and reactants in equilibrium including equilibrium shifts.
9. Identify Arrhenius, Brønsted–Lowry, and Lewis acids and bases including conjugate acid–base pairs.
10. Perform calculations involving acid/base equilibria and sparingly soluble compound equilibria (including pH, percent dissociation, K_a , pK_a , pK_b , buffer solutions).
11. Define a spontaneous process and classify various physical processes and chemical reactions as spontaneous, nonspontaneous, or at equilibrium.

12. Interpret galvanic and electrolytic cells (including shorthand notation and balanced equations for batteries, fuel cells, electrolysis, and corrosion) and perform calculations involving current and time.

PREREQUISITES AND COREQUISITES

CHEM 1230 with a minimum grade of C is a prerequisite for CHEM1240.

TEXTS AND ANCILLARY MATERIALS

- Registration for an iClicker account and iClicker app
<https://store.macmillanlearning.com/us/storefront/201801213>
additional details provided on Blackboard
- From the Blackboard course site <https://blackboard.utdl.edu/webapps/login/> you will access:
 - An electronic copy of the textbook, *Chemistry* by Julia Burge 5th edition
 - Connect online homework assignments
- A non-programmable calculator. Only non-programmable calculators are allowed when you take exams in this course.
- **Optional:** A hard copy of *Chemistry* by Julia Burge 5th edition (3-ring hole-punch version is available in the bookstore).

TEACHING METHODOLOGY

Textbook We urge you to read the text before the lecture so you are familiar with concepts before hearing about them during the limited time of each class session.

Lecture: You are expected to attend the lecture at our regularly scheduled class time. The recording of the lecture will be available for you in the event you want to view parts of the lecture again or have an occasional reason you cannot attend lecture (illness, etc.) The recordings are not a substitute for attending live lecture. Take active notes with the provided lecture outline for each lecture.

Participation points: You will have questions to answer in lecture for participation points using the iClicker app. There will be several extra points available to make up for missing points, but only up to the maximum in this category.

Online Homework will be assigned each week in the form of an online assignment using the program Connect. You are required to attempt the weekly Connect assignment to the best of your ability before your scheduled recitation section. Selected problems from the assigned homework will be discussed in recitation each week. You will then complete the Connect assignment before the deadline each week of Sunday 11:59pm.

Recitation: Everyone is registered for a weekly recitation period. You are required to attend recitation each week. You are expected to show your TA your first attempt on the Connect assignment for the given week. Each recitation is worth 3 points including both attendance and an attempt on the Connect online homework. Please note the special university wide course expectations during COVID-19 listed on the last page of the syllabus.

COMMUNICATION GUIDELINES

As your instructor, I am here to help, and will do my best to respond to email within 24 to 48 hours. Students are expected to check their UT email account and Blackboard frequently for important course information. We want you to be successful in this course, so **let's work together!**

TECHNOLOGY REQUIREMENTS, SKILLS, AND PRIVACY POLICIES

Please view the [technology considerations](#) for this course, including technical skills needed, general technology requirements, and technology privacy policies.

GENERAL TECHNOLOGY REQUIREMENTS

Students need to have access to a properly functioning computer throughout the semester. The Browser Check Page

https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support/Browser_Checkerh will enable you to perform a systems check on your browser, and to ensure that your browser settings are compatible with Blackboard, the learning management system that hosts this course.

Software Student Any computer you use needs to be capable of running the latest versions of plug-ins, recent software and have the necessary tools to be kept free of viruses and spyware.

This course does contain streaming audio and video content.

Use of Public Computers: If using a public library or other public access computer, please check to ensure that you will have access for the length of time required to complete tasks. A list and schedule for on-campus computer labs is available on the Open Lab for Students webpage.

UT Virtual Labs: Traditionally, on-campus labs have offered students the use of computer hardware and software they might not otherwise have access to. With UT's Virtual Lab, students can now access virtual machines loaded with all of the software they need to be successful using nothing more than a broadband Internet connection and a web browser. The virtual lab is open 24/7 and 365 days a year at VLAB: The University of Toledo's Virtual Labs.

Learner Technical Support can be found here

<https://www.utoledo.edu/dl/students/learnersupport.htmlh>

TECHNOLOGY REQUIREMENTS FOR EXAMS

Exams will be taken in our classroom during the scheduled time. A laptop will be required to complete the exam. If you do not have a computer to use, you should arrange to check one out of the library. No webcam is required because the exams will be taken in the classroom in a proctored environment.

This course requires the use of **Respondus LockDown Browser** for exams. Watch the brief video at this link to get a basic understanding of **Lockdown Browser**..

<https://www.respondus.com/products/lockdown-browser/student-movie.shtml>

Download and install **LockDown Browser** from this link:

<https://download.respondus.com/lockdown/download.php?id=213815819>

COURSE EXPECTATIONS

1. Read the textbook before the lecture, the schedule is listed below.
2. Attendance is required for lectures. Take active notes using the provided lecture outlines. You will answer questions for participation credit during lecture.
3. Attendance is required for recitation classes. Bring your first attempt on Connect to your recitation class. Each recitation session is worth 3 WA points: 1 for attendance and 2 for an attempt on Connect. **No credit is given unless you attend the entire recitation session.**
4. You are responsible for all material and problems covered in class.
5. **Complete the online homework assignment Connect before the 11:59pm Sunday deadline each week.**
6. If you need extra help, see your instructor during office hours or use email. Seek help in **Carlson Library's LEC, Chemistry Help Center (BO2043)**, and/or attend **Supplemental Instruction (SI)** sessions.

OVERVIEW OF COURSE GRADE ASSIGNMENT

Course Points The following is the distribution of possible points in the course:

| | |
|---|----------------|
| Midterm Exams 3 @ 100 points each | 300 pts |
| Final Exam | 200 pts |
| Connect Homework (online) | 100 pts |
| Participation: polling, recitation, writing assignments | 100 pts |
| Practice Exam | <u>5 pts</u> |
| Total | 705 pts |

COURSE GRADES

Grade Scale These are the minimum percentages of total points needed to receive the indicated grade.

| | | | | |
|----|---|-----|----|-----|
| | A | 90% | A- | 86% |
| B+ | B | 78% | B- | 74% |
| C+ | C | 66% | C- | 62% |
| D+ | D | 54% | D- | 50% |

Drop, Withdrawal and Incomplete Grades Course drop and withdrawal procedures have been set by the University. *Dropped* courses do not appear on your transcript. The deadline for dropping is February 1st. You may *withdraw* from the course and receive a grade of W. The deadline for withdrawal is March 25th. W's do not affect your GPA.

Note: A student, registered for both a lecture course and an associated concurrent laboratory, who is intending to drop/withdrawal from the lecture course by mid-semester (in first 8 weeks) must also drop the associated lab course. A student withdrawing from the lecture during the last weeks of allowed withdrawal (weeks 9-10) may be allowed to finish the lab course if they have a grade of C or better in the lab and permission of the lab instructor. The student is required to complete paperwork for the registrar and obtain the signature of the faculty member in charge of the laboratory (to certify they meet the criteria above) and take the signed form to the registrar.

A course grade of **Incomplete** is given only to those who have completed all but a small percentage of course requirements for an acceptable reason. The **Incomplete** must be removed before you take organic chemistry.

Midterm Grading

A midterm grade should be taken seriously with respect to how well you are doing in the course approximately half-way through the semester. Midterm grades will be calculated based on the score on Exam 1 and up-to-date participation points and will use the grade scale as listed above.

Final Grading The course points and grade scale as listed above will be used to assign final grades.

ACADEMIC POLICIES

Examinations *Make-up exams will not be given.* Excused absences will only be given based on conditions outlined below. If an excuse is acceptable, your missed exam score will be replaced with a score equal to the average of the other hour exams. The final exam cannot be excused. For all exams you must show a **photo ID card**. You may use a **non-programmable calculator**. You cannot use a programmable calculator or phone. You cannot share a calculator.

Exam Absence Policies: Students who will not be able to take an exam at the scheduled time due to an irresolvable conflict must provide **written** documentation to verify the conflict. This may occur for students on official university business. The exam will be given at another arranged time before the scheduled test date. *Approval must be obtained in advance.*

Students who unexpectedly miss an exam due to extreme circumstances such as severe illness, car accident or similar **extreme** circumstance should inform their instructor ASAP. **Documentation** such as a physician's note, an accident report, etc is required. An email to the instructor within 24 hours is expected. In all other cases a missed exam will result in 0 on the exam. In the event documentation is not readily obtained, students may work with the Office of Student Advocacy and Support to obtain an excusable absence.

<https://www.utoledo.edu/studentaffairs/student-advocacy/>

Academic Dishonesty: Refer to the university's policy on Academic Dishonesty in the university catalogue and the Academic Honesty Statement that you will sign electronically as a part of your practice exam. Violation of this policy can result in a course grade of F with additional university sanctions possible.

UNIVERSITY POLICIES

Undergraduate Policies: <http://www.utoledo.edu/policies/academic/undergraduate/>

Policy Statement on Non-Discrimination on the Basis of Disability (ADA)*

The University is an equal opportunity educational institution. Please read [The University's Policy Statement on Nondiscrimination on the Basis of Disability Americans with Disability Act Compliance.](#) Students can find this policy along with other university policies listed by audience on the [University Policy webpage](#) (<http://www.utoledo.edu/policies/audience.html/#students>).

Academic Accommodations

The University of Toledo embraces the inclusion of students with disabilities. We are committed to ensuring equal opportunity and seamless access for full participation in all courses. For students who have an accommodations memo from Student Disability Services, I invite you to correspond with me as soon as possible so that we can communicate confidentially about implementing accommodations in this course. For students who have not established affiliation with Student Disability Services and are experiencing disability access barriers or are interested in a referral to healthcare resources for a potential disability or would like information regarding eligibility for academic accommodations, please contact the [Office of Accessibility and Disability Services](#) or by calling 419.530.4981 or sending an email to StudentDisability@utoledo.edu.

ACADEMIC AND SUPPORT SERVICES

Please follow this link to view a comprehensive list of [Student Academic and Support Services](#) available to you.

Course scheduling assistance: Chemistry Department Secretary, Ms. Samples, is in Room BO 2022, telephone 419-530-2698. She takes care of all scheduling changes.

Chemistry Help Center, BO2043, is where the teaching assistants hold their office hours so it is a great place to receive assistance. A schedule will be posted early in the term. No appointment is necessary.

Tutoring support for all UT students is available through the **Learning Enhancement Center** located in the Carlson Library.

Instructor Office Hours are times when you can meet with your instructor (no appointment needed) with questions about the course material. My office hour times are listed at the top of the syllabus.

SAFETY AND HEALTH SERVICES FOR UT STUDENTS

Please use the following link to view a comprehensive list [Campus Health and Safety Services](#) available to you.

COURSE SCHEDULE

| WEEK | DATES | TOPIC | STUDENT LEARNING OUTCOMES | ASSIGNMENTS DUE |
|------|-------------|--|---------------------------|---|
| 1 | 1/18 – 1/21 | Ch 11: IMF and the Physical Properties of Liquids and Solids | 1, 2 | Connect Homework 1 (Ch 11A): Due Sunday, 1/23, 11:59pm |
| 2 | 1/24 – 1/28 | Ch 11: continued Ch 13: Physical Properties of Solutions | 1, 3, 4 | Practice Exam (with Respondus Lockdown Browser): Due Friday, 1/28, 11:59pm Connect Homework 2 (Ch 11B/13A): First attempt due at recitation. Final attempt due Sunday, 1/30, 11:59pm |
| 3 | 1/31 – 2/4 | Ch 13: continued | 5 | Connect Homework 3 (Ch 13B): First attempt due at recitation. Final attempt due Sunday, 2/6, 11:59pm |
| 4 | 2/7 – 2/11 | Ch 13: continued Ch 14: Chemical Kinetics | 5, 6 | Exam 1 , Friday, 2/11, in Lecture (Chapters 11, 13, 14(partial)) Connect Homework 4 (Ch13C/14A): First attempt due at recitation. Final attempt due Sunday, 2/13, 11:59pm |
| 5 | 2/14 – 2/18 | Ch 14: continued | 2, 6 | Connect Homework 5 (Ch14B) First attempt due at recitation. Final attempt due Sunday, 2/20, 11:59pm |

| WEEK | DATES | TOPIC | STUDENT LEARNING OUTCOMES | ASSIGNMENTS DUE |
|------------------------------------|-------------|---|---------------------------|---|
| 6 | 2/21 – 2/25 | Ch 14: continued Ch 15: Chemical Equilibrium | 2, 7, 8 | Connect Homework 6 (Ch14C/15A): First attempt due at recitation. Final attempt due Sunday, 2/27, 11:59pm |
| 7 | 2/28 – 3/4 | Ch 15: continued Ch 16: Acids and Bases | 1, 8, 9 | Connect Homework 7 (Ch15B/16A): First attempt due at recitation. Final attempt due Sunday, 3/6, 11:59pm |
| 3/7 – 3/11 Spring Break No Classes | | | | |
| 8 | 3/14 - 3/18 | Ch 16: continued | 1, 9, 10 | Connect Homework 8 (Ch16B): First attempt due at recitation. Final attempt due Sunday, 3/20, 11:59pm |
| 9 | 3/21 – 3/25 | Ch 16: continued Ch 17: Acid-Base Equilibria and Solubility Equilibria | 1, 2, 9, 10 | Exam 2 , Friday, 3/25, In Lecture (Ch 14(partial), 15, 16, 17(partial) and review of Exam 1) Connect Homework 9 (Ch16C/17A): First attempt due at recitation. Final attempt due Sunday, 3/27, 11:59pm |
| 10 | 3/28 – 4/1 | Ch 17: continued | 2, 3, 10 | Connect Homework 10 (Ch17B): First attempt due at recitation. Final attempt due Sunday, 4/3, 11:59pm |
| 11 | 4/4 – 4/8 | Ch 17: continued Ch 18: Entropy, Free Energy, and Equilibrium | 2, 10, 11 | Connect Homework 11 (Ch17C/18A): First attempt due at recitation. Final attempt due Sunday, 4/10, 11:59pm |
| 12 | 4/11 – 4/15 | Ch 18: continued Ch 19: Electrochemistry | 2, 11 | Connect Homework 12 (Ch18B/19A): First attempt due at recitation. Final attempt due Sunday, 4/17, 11:59pm |
| 13 | 4/18 – 4/22 | Ch 19: continued | 2, 12 | Exam 3 , Friday, 4/22, In Lecture (Chapters 17, 18, 19 (partial), and review of Exams 1 and 2) Connect Homework 13 (Ch19B): First attempt due at recitation. Final attempt due Sunday, 4/24, 11:59pm |
| 14 | 4/25 – 4/29 | Ch 19: continued | 12 | Connect Homework 14 (Ch19C): First attempt due at recitation. Final attempt due Sunday, 5/1, 11:59pm |
| Finals Week 5/2 – 5/6 | | | | Final Exam: Wednesday, 5/4, 8:00am – 10:00am Chapters 11, 13 – 19 |

SPECIAL UNIVERSITY WIDE COURSE EXPECTATIONS DURING COVID-19

RECITATION AND LECTURE ATTENDANCE

The University of Toledo has a missed class policy. It is important that students and instructors discuss attendance requirements for the course (see COURSE EXPECTATIONS section) Students must perform a daily health assessment, based on based on CDC guidelines, before coming to campus each day, which included taking their temperature. Students who are symptomatic/sick should not come to class and should contact the Main Campus Health Center at 419-530-3451. Absences due to COVID-19 quarantine or isolation requirements are considered excused absences **from face-to-face lecture and recitation**. Students should notify their instructors and these absences may not require written notice.

FACE COVERINGS

All students must wear face coverings while on campus, except while eating, alone in an enclosed space, or outdoors practicing social distancing. NO students will be permitted in class without a face covering. If you have a medical reason that prevents you from wearing a face covering due to a health condition deemed high-risk for COVID-19 by the Centers for Disease Control and Prevention (CDC), you should submit a request for an accommodation through the Student Disability Services Office (SDS) by completing the online application. Students will need to provide documentation that verifies their health condition or disability and supports the need for accommodations. If a student is already affiliated with SDS and would like to request additional accommodations due to the impact of COVID-19, should contact their accessibility specialist to discuss their specific needs.

OTHER SPECIAL NOTES

It's important to note that based on the unpredictability of the COVID-19 virus things can change at any time so please be patience and understanding as we move through the semester. This is the campus COVID information page which you should check:

<https://www.utoledo.edu/coronavirus/keeping-campus-safe/#healthandsafety>
