UToledo's Lake Erie Center Research Experience for Undergraduates (REU) Program

The Lake Erie Center (LEC) offers a 10-week, Summer Research Experience for Undergraduates (REU) Program in the Great Lakes Region. Over the summer, students are partnered with faculty and graduate student mentors to conduct cutting-edge research on important land-lake environmental challenges.

Program Benefits:

- Stipend, housing, transportation and food allowance
- Fun, exciting and meaningful field and lab research
- Build the skills for your dream career
- Develop life-long connections with scientists, faculty, engineers, grad students and agencies
- Opportunities in: Biology, Environmental Sciences, Hydrology, Geography and GIS
- Study and help combat challenges:
 - Harmful algal blooms and water quality
 - Invasive species
 - Natural communities and habitat
 - Land use and nutrients
- Use and apply top technology
- Rising college juniors and seniors preferred, rising sophomores will be considered
- Must be a U.S. citizen or permanent legal resident
- This program will likely run in a virtual or semi-virtual fashion due to COVID-19 restrictions, specifics of research project locations will be worked out on a case by case basis

Program Dates:

May 24-July 30, 2021

Application Dates:

Feb 28, 2021
