

Special Programs for the Scouting Community

Cub Scout and Brownies Astronomy/Space Science Program

Saturday, January 23, 2016 @ 3:00 PM

This two-hour program (with an intermission) features a full-dome planetarium program utilizing our state-of-the-art projection system along with an interactive tour of the night sky and a live program meeting all of the guidelines for Cub Scouts and Brownies. Solar observing, weather permitting, is also included. Reservations, usually on the troop level, are required. The fee is \$10 per person, including adults.

Girl Scout Space Exploration Ribbon Program

Saturday, February 20, 2016 @ 6:30 PM

Based on updated guidelines from the Girl Scouts and utilizing our state-of-the-art projection system and a custom series of worksheets, this two-hour program will give participants all of the information and experience needed to earn their space exploration ribbon. Observing at the Brooks Observatory follows, weather permitting. Reservations, usually on the troop level, are required. The fee is \$12 per person, including adults.

Boy Scout Merit Badge Program

Saturday, March 5, 2016 @ 6:30 PM

Based on updated guidelines from the Boy Scouts and utilizing our state-of-the-art projection system and a custom series of worksheets, this two-hour program will give participants all of the information and experience needed to earn their merit badge (although they will have to make a few observations in the days after the program). Observing at the Brooks Observatory follows, weather permitting. Reservations, usually on the troop level, are required. The fee is \$12 per person, including adults.

For reservations or more information please call 419.530.2650 or send e-mail to rpbo@astro.utoledo.edu.
