

Special Programs for the Scouting Community

Boy Scout Merit Badge Program

Tuesday, October 14th and Saturday, November 15th @ 6:30 PM

Based on updated guidelines from the Boy Scouts and utilizing our new state-of-the-art projection system and a custom series of worksheets, this two hour program will give participants all of the information and experience needed to earn their merit badge (although they will have to make a few observation in the days after the program). Observing at the Brooks Observatory follows, weather permitting. Reservations, usually on the troop level, are required. The fee is \$12 per person, including adults.

Cub Scout and Brownies Astronomy/Space Science Program

Saturday, October 18th and Saturday November 15th @ 3:00 PM

This two hour program (with an intermission) features a fulldome planetarium program utilizing our new state-of-the-art projection system along with an interactive tour of the night time sky and a live program meeting all of the guidelines for Cub Scouts and Brownies. Solar observing, weather permitting, is also included. Reservations, usually on the troop level, are required. The fee is \$10 per person, including adults.

Girl Scout Space Exploration Ribbon Program

Saturday, October 18th and Wednesday, November 12th @ 6:30 PM

Based on updated guidelines from the Girl Scouts and utilizing our new state-of-the-art projection system and a custom series of worksheets, this two hour program will give participants all of the information and experience needed to earn their space exploration ribbon. Observing at the Brooks Observatory follows, weather permitting. Reservations, usually on the troop level, are required. The fee is \$12 per person, including adults.

For reservations or more information please call 419.530.2650 or send e-mail to rpbo@astro.utoledo.edu.
