

# Don't Duck, Look Up!

## Pre-K-Grade

Taped program with interactive live component

---

### OHIO Standards

Earth & Space Sciences (unless otherwise marked)

Rating Scale	Grade Level	Benchmark	Indicator
1 (main topic)			
2 (covered in detail)	K	A	1. Observe that the Sun can be seen only in the daytime, but the Moon can be seen sometimes at night and sometimes during the day.
2 (covered in detail)	2	A	1. Recognize that there are more stars in the night sky than anyone can easily count.
3 (briefly discussed)			

#### K-2

Benchmark A: Observe constant changing patterns of objects in the day and night sky.

---

### MICHIGAN Standards

Standard V.4 Solar System, Galaxy, and Universe (ES)

Rating Scale	S.C.# (Strand)	S.C.# Grade Level	Indicator
1 (main topic)			

2 (covered in detail)	2	Elementary	2. Describe the motion of the Earth around the Sun, and the Moon around the Earth.
3 (briefly discussed)	1	Elementary	1. Compare and contrast the characteristics of the Sun, Moon, and Earth.

**Standard component #1:** All Students will compare and contrast our planet and Sun to other planets and star systems.

**Standard component #2:** All students will describe and explain how objects in our Solar System move.

## TOLEDO DIOCESE Guidelines

Earth & Space Sciences (unless otherwise marked)

Rating Scale	L.O.	Grade Level	Indicator
1 (main topic)	2	1	Know the basic patterns of the Sun and Moon. (E.g. the Sun appears every day and the Moon appears sometimes at night and sometimes during the day, etc.)
2 (covered in detail)	2	1	Knows that the stars are innumerable, evenly dispersed, and of unequal brightness.
3 (briefly discussed)	1	5	Know that the Sun supplies heat and light to the Earth.

### Grade 1

**Learning Objective 2:** Understands the composition and structure of the universe, and the Earth's place in it.

### Grade 2

**Learning Objective 1:** Understands atmospheric processes.
