The number of enrolled DHS students varies slightly from the official 15th day enrollment report (2007 = 3,595 and 2006 = 3,168) because enrollment and admissions data come from separate databases. A small number of students have a record in the enrollment database, but not in the admissions database.

- NOTES: (1) Based on recent changes to IPEDS definitions of First-Time, Full-Time, Baccalaureate-Degree-Seeking students, we have made retroactive adjustments to fall cohort sizes, retention rates, and graduation rates in this report.
 (2) Graduation rates are cumulative.
 (3) Return and graduation rates for students who began before Fall 2001 are unreliable because high school GPAs are only available for students who have had enrollment activity since September 2001.
 (4) A large percentage of students who do not have a high school GPA on record are new adults or international students.

One-Year Return Rates by High School GPA Category

Note: Return rates for students who began prior to Fall 2001 are unreliable because high school GPAs are only available for students who have had enrollment activity since September 2001.
