Foreword

This style guide was prepared by the Office of Marketing and Communications in an effort to bring consistency to publications written for and about The University of Toledo. Following these standards will promote uniformity and clarity and strengthen the effectiveness of communications.

This guide addresses frequently asked questions about style, as well as some common errors. Included are examples related to The University of Toledo to encourage better understanding of the rules and concepts.

It is not comprehensive; consulting other reference sources is suggested. The Office of Marketing and Communications follows “The Associated Press Stylebook,” with some exceptions that are explained in this guide. The office also uses “The American Heritage Dictionary of the English Language.” Checking the UToldeo website to verify current college, department and office names, as well as faculty and staff titles, also is advised.

For questions not answered in this guide or by these reference books, contact the Office of Marketing and Communications at 419.530.2299. This style guide is online at utoledo.edu/offices/marketing.
