Committee member Ms. Christine Brennan was absent. Other Trustees who attended the meeting included Mr. Steven M. Cavanaugh, Mr. Pat D'Eramo, Ms. Mary Ellen Pisanelli, Ms. Sharon Speyer, and Mr. Joseph H. Zerbey, IV. Faculty representative Dr. Amy Thompson and Community member Ms. Mary Fedderke were present. ProMedica Partners Ms. Holly Bristoll and Mr. Arturo Polizzi were also present. Other meeting attendees included Mr. Jason Anthony, Dr. Karen Bjorkman, Dr. Amanda Bryant-Friedrich, Mr. T.J. Buchholz, Dr. Frank Calzonetti, Mr. Jason Candle, Dr. Flapp Cockrell, Dr. Christopher Cooper, Ms. Meghan Cunningham, Ms. Sarah Elms, Ms. Wendy Fraley-Davis, Mr. Rick Gerasimiak, Mr. Michael Harders, Dr. Hassan HassabElnaby, Dr. Michael Heben, Dr. Andrew Hsu, Ms. Mary Humphrys, Dr. Christopher Ingersoll, Mr. Charles Jake, Dr. Andrea Kalinoski, Mr. Larry Kelley, Ms. Brenda Lee, Ms. Sarah Long, Ms. Jean Lovejoy, Dr. Michael Mallin, Mr. Kenneth McFeggan, Mr. Michael O'Brien, Mr. Peter Papadimos, Ms. Patricia Peterson, Dr. Ellen Pullins, Mr. James Russell, Mr. Matthew Schroeder, Dr. Kristi Skeel Williams, Ms. Joan Stasa, and Mr. Andrew Williams.

The meeting was called to order at 1:25 p.m. by Trustee Cole in the Driscoll Alumni Center Schmakel room. Ms. Joan Stasa, Secretary to the Board, recorded the minutes.

Trustee Cole read Proclamation No. 17-12-22: "In Recognition of the UT Women's 2017 Soccer Team and Coaches" in its entirety and presented it to Head Coach TJ Buchholz. Coach Buchholz thanked President Gaber and Mike O'Brien for giving him the opportunity to lead the Women's Soccer Program. He stated he was proud of the tireless work of the team excelling on the soccer field, as well as being leaders in the classroom.

Trustee Cole also read Proclamation No. 17-12-23: "In Recognition of the UT Rockets 2017 Football Team and Coaches" in its entirety and presented it to Head Coach Jason Candle. Coach Candle took the opportunity on behalf of the football team and coaches to thank the great football staff for all they have done. Mr. Candle also thanked VP and Athletic Director Mr. Mike O'Brien and President Gaber for their support and stated that they are proud to be going to the Bowl game in Mobile, Alabama to represent the University and spread the Rocket spirit.

Mr. O'Brien stated that he was thrilled about the championships and congratulated the teams and coaches. More importantly, he wanted to recognize how well the student athletes have been doing in the classroom. He is proud of

all their accomplishments and thanked everyone for support of all the student athletes.

Mr. James Russell, Student Government President, and Mr. Andrews Williams, Student Government Vice President, provided the Committee with information about the following items.

- Student Government spent a day at Ohio University this past semester for this year's first Ohio Student Government Association (OSGA) meeting. At this meeting, it was determined that OSGA has been ineffective in its current form; therefore, the Association was reorganized. It is hopeful that this rebuilding will better serve the students at Ohio public institutions.
- This past semester, a few of our senators took it upon themselves to reestablish the relationship between UT Green Fund and UTSG. They have successfully lobbied the UT Green Fund to pay for upgrading some of the lights in the Student Union to be both brighter and more efficient. In addition, there will now be an SG representative on the UT Green Fund Board.
- In September, SG collaborated with the International Student Association and The Office of The Dean of Students to host the 2017 UT Student Leadership Conference. Student leaders from most of the major organizations on campus were in attendance. The surveys and feedback were all very positive. We are hopeful the event will grow even larger next year.
- SG plans to host a spring retreat next semester. This retreat will help further educate our senators to be more effective service leaders.

Trustee Cole invited Dr. Amy Thompson, Faculty Senate President, to present the Faculty Senate report - Attachment 1.

Mr. Cole invited Dr. Andrea Kalinoski, Graduate Council Chair, to present the Graduate Council report - Attachment 2.

Trustee Cole requested a motion to waive the reading of the minutes from the September 18, 2017 Committee meeting and approve them as written. A motion was received by Trustee Lucas, seconded by Trustee Baker, followed by Committee approval.

Dr. Andrew Hsu, Provost and EVP Academic Affairs, presented a recommendation for a Posthumous Degree for Bachelor of Arts in Individualized Programs Candidate Ms. Tary Blair. Dr. Hsu stated that UT Policy No. 3364-71-19 states that an undergraduate student must have completed a minimum of 80% of their course requirements and be in good academic standing with no holds on their account to be granted a posthumous degree. At Ms. Blair's death, she was enrolled in her fourth year of an

individualized program and had completed over 82% of her course requirements. She was also in good academic standing and had no financial and/or disciplinary holds on her account. Trustee Cole requested a motion to approve the Posthumous degree for Ms. Blair and forward it to the Consent Agenda at the next Board meeting. The motion was received by Trustee Lucas, seconded by Trustee Baker, and approved by the Committee.

Dr. Hsu presented Resolution No. 17-12-24: “Final Action Report on Duplicate Programs.” Dr. Hsu stated that the Ohio Department of Higher Education required submission of a Final Action Report on Duplicate Programs to the Chancellor by December 31, 2017. The proposed actions were developed through consultation with faculty committees, departments, deans of the colleges, as well as endorsement by the Faculty Senate. Five duplicate programs were recommended for elimination or phasing out. Dr. Hsu also reviewed with the Committee a list of six duplicate programs that will continue. Trustee Cole requested a motion to approve the Resolution and forward it to the Consent Agenda at the next Board meeting. A motion was received from Trustee Lucas, seconded by Trustee Baker, and approved by the Committee.

Dr. Hsu provided the Board of Trustees with information on the Master Degree Program Proposal for an Executive Masters of Sales Leadership in the Edward H. Schmidt School of Professional Sales, College of Business and Innovation. Dr. Hsu discussed the demand for this program and provided the committee with the program and curriculum summary. Faculty and staff for this new program were also discussed. Trustee Cole requested a motion for approval of the new program and to forward it to the Consent Agenda at the next Board meeting. A motion was received from Trustee Lucas, seconded by Trustee Baker, and approved by the Committee.

Additionally, Provost Hsu provided information on a Master Degree Program Proposal for Masters of Athletic Training in the School of Exercise and Rehabilitation Sciences, College of Health and Human Services. Dr. Hsu stated that the Commission on the Accreditation of Athletic Training Education (CAATE) has mandated the entry-level degree to be at the Master’s degree level by year 2022. The proposed curriculum for this new program was discussed as well as available faculty resources. UT would be the first public institution in Northwest Ohio to offer the degree and would be in the forefront in offering the program in Ohio. Trustee Cole requested a motion for approval of the new program and to forward it to the Consent Agenda at the next Board meeting. A motion was received from Trustee Baker, seconded by Trustee Lucas, and approved by the Committee.

Provost Hsu requested a name change for the Department of Foreign Languages to the Department of World Languages and Cultures, College of Arts and Letters. This request is based on demographic and pedagogical changes of foreign language and literature programs. The name change proposal was endorsed by the Department, College Council, Dean, Faculty Senate, Provost and President. Trustee Cole requested a motion for approval of the department name change and for forwarding to the Consent Agenda at the next Board

meeting. A motion for approval was received from Trustee Lucas, seconded by Trustee Baker and approved by the Committee.

Dr. Kristi Skeel Williams, Associate Dean for Graduate Medical Education/Designated Institutional Official, provided the Committee with information about the GME Annual Institutional Review. She reported that the Graduate Medical Education Committee (GMEC) is responsible for monitoring and advising the training programs on all aspects of resident education. The GMEC is comprised of the Designated Institutional Official, who chairs the Committee, as well as program directors, peer selected residents from each training program, and other appropriate institutional faculty and affiliate members. Dr. Skeel Williams displayed charts showing each residency and fellowship program indicating the number of residents by program. In addition to UTMC as a participating site location for 2016-2017, others included ProMedica: Toledo Hospital, Toledo Children's Hospital and Flower Hospital, Mercy Health Partners: Mercy St. Vincent Medical Center, St. Luke's Hospital, and Toledo Veterans Affairs Outpatient Clinic. Dr. Skeel Williams reviewed the Accreditation Council for GME Resident Survey 2016-2017 with the Committee and outlined the UT Resident overall survey -- 24 programs were surveyed with a response rate of 98%. The Accreditation Council for GME Faculty Survey 2016-2017 was also reviewed where the UT Faculty Overall Survey was outlined -- 24 programs were surveyed with a response rate of 86%. Dr. Skeel Williams then reviewed goals for the upcoming year.

Provost Hsu provided the Committee with information about the Ohio Department of Higher Education Remediation Report. Each Committee member received a copy of the report prior to the meeting for review. Dr. Hsu stated that the report is in response to Ohio Revised Code Section 3345.062, which requires that the president of each state university issue a report by December 31, 2017, and at the end of each year thereafter, on the remediation of students. Dr. Hsu reviewed the report and the cost of remedial coursework for FY17.

Dr. Hsu introduced Dr. Michael Heben, Professor of Physics/Endowed Chair in Photovoltaics, to provide the Committee with a research spotlight on the Wright Center for Photovoltaics Innovation and Commercialization. Dr. Heben gave the Committee a brief history of glass, photovoltaics ecosystem in Toledo. He discussed the exponential growth in solar and renewable energy from 1975 to August 2016. The Northern Ohio Building-to-Grid Integration Project was discussed with the Committee. Dr. Heben provided the Committee with information about the broad and deep talent and resources in Photovoltaics that includes three colleges and six departments, 17 faculty members, four endowed professorships, close cooperation with the Facilities and Construction Department, and world-class facilities with state-of-the-art equipment.

With no further topics before the Committee for discussion or action, Trustee Cole adjourned the meeting at 2:40 p.m.

Faculty Senate Report to Board of Trustees Academic and Student Affairs Committee December 18, 2017

Since we are at the mid-point of the academic year, we would like to take the opportunity to reflect on our collective accomplishments and progress towards our four major goals that our Faculty Senate has set. We have accomplished a lot together already and want to highlight these significant accomplishments.

First Goal: Faculty Engagement

President Thompson and President Elect Rouillard have visited each individual college to invite faculty to Senate meetings and to share the goals for the year of the Faculty Senate Executive Committee. In October, the Faculty Senate hosted a well-attended faculty forum with Representative Dan Ramos who discussed issues in higher education. We also hosted a Homecoming social for faculty with the President and Provost. In the spring, we will host a UT Faculty Advocacy and Communication Training in partnership with the Office of Government Relations. The goal of this training is to help improve the self-efficacy of faculty in meeting with policy makers, speaking on their research and promoting UT. We have also partnered with the Division of Student Affairs through the Counselling Center to offer training to faculty on how to help students who are experiencing a crisis or other mental health issues. We will be announcing shortly the dates of these trainings. This is certainly a needed resource for both faculty and students.

Second Goal: Revision to the Constitution and Bylaws

Our Constitution and Bylaws Committee led by Dr. Mark Templin has made substantial progress on these documents. Originally, it was thought we would not be voting on these documents until next fall, but due to the significant work already accomplished, we are hopeful we will have an all faculty vote for approval in the spring. Once the faculty vote to approve our new constitution and bylaws, these will come to the BOT for approval. We look forward to your support on these documents.

Third Goal: Affordability and Access to Textbooks

Senator Tom Atwood has worked diligently with his special appointed taskforce to assess our current practices, perceptions and policies. As part of their efforts, there has been an increase in presentations by the Bookstore to several departments and they have also hosted several open information sessions prior to spring semester. This has helped better inform faculty about how buying decisions are made, possible rental and digital options, the use of access codes and their impact on cost to students, FacultyEnlight, as well as the price match program. We look forward to the possible launch of a faculty survey in the spring to assess better ways to work with the bookstore to increase affordability and access for textbooks.

Fourth Goal: Improving the Processing of UT Policies

Past President Kristin Keith was instrumental in helping recently pass our “Missed Class Policy.” Last week the Academic Regulations Committee met again and are currently working on the “UT Research Misconduct Policy” as well as the “Dual Degree Policy.”

In addition to completing progress towards our four major goals, there are some other recent significant accomplishments by Senators and your Faculty Senate Executive Committee that I would like to highlight:

1. Working closely with President Gaber, we were able to bring back access to Primary Care for Faculty and Staff on Main Campus. There is now access in the Main Campus Student Medical Center for any faculty and staff member who needs primary care.
2. Through our work with Vice Provost Ayres, it was announced very early the procedure for submission of tenure and promotion documents will be implemented next year. All faculty within the first six years of review and those going up for promotion to full professor will now be required to use the Faculty 180 portal.
3. Faculty Senate Executive Committee in conjunction with Auxiliary Services has helped launch some new healthier vending machines on a pilot basis to improve wellness on our campus. The first of these is located on the first floor of the Health and Human Service Building.
4. Winter Intersession is fast approaching and through our partnership with Provost Hsu we are looking forward to seeing the new pilot program recommended by Faculty Senate Executive Committee launched and become successful.
5. Last week at our Faculty Senate meeting, we voted to endorse a low enrollment and duplicate program action plan proposed by the Provost's Office. We believe this is thoughtful and fair approach to addressing this request by the Ohio Department of Higher Education.
6. Faculty Senate has strengthened our relationship with the UT Office of Government Relations. Through this enhanced partnership, we are provided monthly legislative updates and have been able to effectively advocate with legislators on specific pieces of legislation like HB 66, which was recently passed and is now in the Senate. We would like to encourage members of the BOT to join us in actively advocating on key pieces of legislation that can impact our university.
7. Recently, you may have read a Letter to the Editor that was published in The Toledo Blade on behalf of Faculty Senate. Faculty Senate continues to support our University, President Gaber, Provost Hsu and the senior leadership team. We have many ranked programs and world-class faculty and students. As Senators, we believe it is important to continue to be ambassadors of UT and to share our success with each other and in the community.

Respectfully,

Amy Thompson
University of Toledo Faculty Senate President

**Graduate Council Report to Board of Trustees Academic and Student Affairs Committee
December 18, 2017**

Since the last report to the Academic and Student Affairs Committee, Graduate Council Executive Committee (GCEC), and the Graduate Council have been working on the Strategic Planning process for the College of Graduate Studies (COGS) and graduate programs. The GCEC has discussed the development of the Strategic Planning process for COGS and opted for a working session GC for the first half of the academic year to gather input from graduate faculty. To aid in this process, Dean Bryant-Friedrich has met with each of the Colleges and discussed the benchmarks to be included in the COGS Strategic Plan. These meetings focused on the institutional data for graduate programs at both the Masters and Doctoral levels. Participation of each College and its graduate faculty have assisted in the development of strategic initiatives to increase enrollment in graduate programs, improve research productivity and graduate program prominence and improve time to degree completion. These data were discussed and provide the basis of COGS strategic goals and outcomes which are central to the Strategic Plan. Benchmarks of the plan include enhancing student success with academic excellence and professional development, growing enrollment, developing new and existing niche areas of focus, allocation of resources for positive fiscal positioning and efficiency, increasing faculty retention, promotion and satisfaction, while building a strong national reputation for research excellence at OUR University of Toledo.

To develop individual benchmarks, Graduate Council participated in open discussion forums that included surveys addressing each of the Strategic Plan priorities and individual goals. Interactive discussions were open, inclusive and productive which provided the guidance for the development of the COGS strategic plan. Graduate Council also hosted Provost Hsu to discuss the University Strategic Plan specific to Graduate Education. Discussions included elevating student and faculty success, increasing reputation, financial sustainability, elevation in research stature and promotion of a culture for SUCCESS at the University of Toledo.

A new process for the development and review of Graduate Programs in COGS was adopted by the Graduate Council and two new programs were recommended for approval. This includes the Masters in Athletic Training and the Executive Master of Sales Leadership (EMSL) program, which will both be presented today.

Graduate Council also discussed and affirmed the TOEFL entrance requirements for graduate admission and updated the countries that list English as the official language to include the 18 new countries that are listed in the 2016 Edition of the World Almanac and Book of Facts (www.cia.gov).

The GCEC also reviewed and referred a number of policies to the Academic Programs & Regulations Committee (APRC) for review. These policies are the Missed Class Policy 3364-71-14, Enrollment Policy 3364-77-05, Graduate Student Academic Grievance Policy 3364-77-02 and the Graduate Student Leave of Absence Policy 3364-77-04.

The GCEC appointed Dr. Michael Mallin from the College of Business and Innovation (COBI) to the Research Council to fulfill the final year of a 3 year term served by the now intern Dean of COBI Dr. HassabElnaby.

The Graduate Council looks forward to continuing partnership with COGS, the Provost's office, the Graduate Student Association, and UT faculty, staff and students in supporting our graduate and professional programs.

Respectfully,

Andrea L. Kalinoski, Ph.D.
University of Toledo Graduate Council Chair

DATE: January 11, 2018

RE: Honorary Degree Nomination for May 2018 Commencement Ceremony

Upon the recommendation of the Academic Honors Committee (AHC), I would like to recommend that the University's Board of Trustees approve the following nomination for an honorary degree. Chuck Ealey has accepted my invitation to serve as the University's Commencement speaker at the spring 2018 Commencement ceremony.

Charles "Chuck" Ealey was born in Portsmouth, Ohio, and graduated from Notre Dame High School with an undefeated record as quarterback and with two high school state championships. After accepting a football scholarship from The University of Toledo, he continued his undefeated record as quarterback, and his perfect 35-0 NCAA record still stands after more than four-and-a-half decades. At UT, Mr. Ealey earned a Bachelor of Business Administration (BBA) degree in Business Economics and was the recipient of numerous honors and awards, including the Cohen Freshman of the Year Award in 1968, the Jim Nicholson Award for greatest contribution to team success in 1970 and 1971, and Team Captain in 1971. He was also named First-Team All-MAC (Mid-American Conference) in 1969, 1970 and 1971. In addition, he received national recognition in 1971 as an All-American and Heisman Trophy candidate, finishing eighth in the voting. Mr. Ealey led the Rockets to three MAC championships, three post-season Tangerine Bowl victories, and three top-twenty rankings.

In 1972, he was drafted by the Canadian Football League and was named Rookie of the Year and led the Hamilton Tiger-Cats to a Grey Cup Championship. In addition, he was named Most Valuable Player as quarterback. During his seven years in the Canadian Football League, Mr. Ealey also played for the Winnipeg Blue Bombers and the Toronto Argonauts. He was the recipient of the African Canadian Achievement Sports Award and was named to the Mississauga Sports Hall of Fame. In 1988, he was inducted into the MAC Hall of Fame as a charter member.

Following his legendary sports career, Mr. Ealey worked as Territory Manager for John Deere Limited and as a football analyst for the Canadian Broadcasting Company (CBC); prior to his long career as Regional Director and Certified Financial Planner for Investors Group Financial Services in Canada. He has received a number of awards, including the Master Manager Award and the Herb Carnegie Community Leadership Award, as well as being honored by the City of Toronto and the Canadian Football League for "Contributions of African Canadians" for Black History Month.

His contributions to the community are equally impressive, with Mr. Ealey serving on a number of boards, councils, and foundations; and working with many volunteer and charitable organizations.

Living his life with an undefeated spirit, no matter the circumstances, Mr. Ealey founded the Chuck Ealey Foundation in 2007 with the mission of enabling people “to discover and embrace their undefeated spirit to better themselves and their community one play at a time.” The Foundation supports youth mentoring programs, high school award programs honoring student athletes and leaders in Northwest Ohio and Southeast Michigan, the annual Undefeated Spirit Award honoring a UT student athlete, and the Dire Needs Fund for those who find themselves in unfortunate situations and need support. The Chuck Ealey Foundation also provides Undefeated Programs for corporate and nonprofit education.

Known as the “Wizard of Oohs and Aahs,” Mr. Ealey received the 2007 University of Toledo Alumni Association’s Blue T Award, which recognizes outstanding contributions to the Alumni Association, the University, and the community. In 2008 he was honored in a PBS documentary, “The Undefeated: The Chuck Ealey Story,” and was featured in the book, *Choice of Colours: The Pioneering African Americans Who Changed the Face of Football*. In 2012 his daughter, Jael Ealey Richardson, writer and broadcaster, published *The Stone Thrower: A Daughter’s Lessons, a Father’s Life*, telling her father’s story from growing up in a segregated community to unrivaled football success. Both father and daughter were featured in the documentary film, *The Stone Thrower*, produced by The Sports Network (TSN).

Mr. Ealey is also a proud husband, father, and grandfather. His son Damon also played football for The University of Toledo in 1995.

In recognition of his many accomplishments, I request your support of the nomination of Charles “Chuck” Ealey for the Honorary Degree of Doctor of Humane Letters, *honoris causa*, to be conferred at the University of Toledo’s spring Commencement on May 5, 2018.

ABOUT CHUCK EALEY

After completing an undefeated record in High School in Portsmouth Ohio, Chuck received a Football scholarship to University of Toledo. While getting his degree in Business Economics, Chuck, as Quarterback, led his UT Rockets to a record breaking 35—0 college record. He was 8th in the 1971 Heisman Trophy standings. Despite this record, Chuck was passed over by the NFL draft as Quarterback. Although offered other positions, Chuck remained committed to becoming a Professional Quarterback and chose to go to the CFL where the only thing that mattered was his ability. In 1972 he led the Hamilton Tigercats to a Grey Cup Championship, winning MVP as Quarterback. He also played for the Toronto Argonauts and the Winnipeg Blue Bombers, and played in the CFL for 7 years.

Chuck is now working as a Certified Financial Planner with Investors Group for 30 years. He recently stepped out of the role as Regional Director to do more Client and Corporate Coaching. With his experience in areas of planning, teaching, managing and coaching, he provides a wealth of knowledge and experience for all. Chuck has established the Chuck Ealey Foundation with the purpose, "to encourage people of all ages to discover and embrace their Undefeated Spirit to better themselves and their community one play at a time."

He is the recipient of the Herb Carnegie Community Leadership Award as well as serving on the boards of the Mississauga Sports Council and the Living Art Centre. He is Married to his wife Sherri for 44 years and has 3 children and 6 grandsons.

TESTIMONIALS

"If you are looking for a dynamic, entertaining speaker, full of heart and passion, Chuck Ealey is your man. I found dealing with Chuck, through the whole process, to be a pleasure. Chuck took time to understand our objective of the day and how he could tailor his message to bring the best value to our audience. He was well prepared and professional throughout."

Bill Johnson, BBA, CLU

"Chuck Ealey did an outstanding job at the 2000 MAFAC Conference in Toronto. His platform presence was terrific and his unique blending of football stories and his business message kept the audience paying attention."

*Lorne McBride, CFP, CLU, CH.FC.
Past President, Toronto Managers Association of
Financial Advisors of Canada.*

"For many, a highlight was the presentation given by Investors Group Regional Director, Chuck Ealey CFP. He spoke on teamwork, on building a sales team using strong principles and ethics, and on his own humble beginnings in the projects of a small southern Ohio city, which he terms the 'upscale ghetto'. Chuck, as well as having established an enviable record with Investors, also sported the Grey Cup ring he won as star in the CFL, where he was rookie of the year, and a key quarterback for the Hamilton Tigercats and Toronto Argonauts. He also exemplified the diversity in a business which, just a few years ago looked on such organizations as Investors as the enemy, and now embraces it as a colleague-in-sms."

CHUCK SPEAKS

If we are to live together in harmony and peace we must reaffirm the positive. This involves three areas of our lives.

First is how we see ourselves and the worth and value that we give to the world. There are those who are controlled by fear and lack of self-esteem. This can prohibit their success but can also adversely affect their relationships with others.

My past experiences have taught me, that no matter what; if you believe in yourself and are confident, regardless of circumstances, you can achieve anything. In sports, when others have the same attitude to accomplish a goal, we call this teamwork. This not only applies to sport but also to family, work and community.

Finally I believe that our responsibility to authority and truth governs the direction of oneself and our relationship with others.

My objective in speaking is to clarify these areas and add value whether it is to family, school, business, community, or sports.

CHUCK TALKS CANDIDLY & PROFESSIONALLY ON TOPICS SUCH AS:

Choices

"Life is a sum of all your choices." - Albert Camus

Empowering your life in every situation, Chuck speaks to embracing life's choices with optimism.

Undefeated Spirit

"Whatever the mind of man can conceive and believe, the mind can achieve." - Napoleon Hill
People who build successful teams, never forget that every person on a team has a role to play, and every role plays its part in contributing to the bigger picture. Chuck gives audiences the seven keys to master the winning edge.

Inward Outward Upward

"Whether you think you can, or think you can't - you are right." - Henry Ford
No matter what position you play in sport, business or community, someone counts on you to deliver. Chuck speaks to how you can be a powerful contributor in every position you play.

THE STONE THROWER

At the age of thirty, [Jael Ealey Richardson](#) travelled with her father—former CFL quarterback Chuck Ealey—for the first time to a small town in southern Ohio for his fortieth high school reunion. Knowing very little about her father's past, Richardson was searching for the story behind her father's move from the projects of Portsmouth, Ohio to Canada's professional football league in the early 1970s. At the railroad tracks where her father first learned to throw with stones, Jael begins an unexpected journey into her family's past.

In this engaging father-daughter memoir, Richardson records some her father's never-before-told stories: his relationship with his absentee father, memories of his high school and college football victories – including a winning record that remains unbroken to this day – and his up-and-down relationship with the woman he would one day marry.

As Richardson begins unravelling the story of her father's life, she begins to compare her own childhood growing up in Canada, with her father's US civil rights era upbringing. Along the way, she also discovers the real reason—despite his athletic accomplishments—her father was never drafted into the National Football League.

The Stone Thrower is a moving story about race and destiny written by a daughter looking for answers about her own black history. Using insightful interviews, archival records and her personal reflections, Richardson's journey to learn about her father's past leads her to her own important discoveries about herself, and what it really means to be black in Canada.

RE: **Honorary Degree Nomination for 2018 College of Medicine and Life Sciences Commencement Ceremony**

Upon the recommendation of the Academic Honors Committee, I would like to recommend that the Board of Trustees approve the following nomination for an honorary degree. Josiah Rich, M.D., MPH has accepted the invitation of Dr. Christopher Cooper, Dean, College of Medicine and Life Sciences, and Executive Vice President for Clinical Affairs to be the Commencement speaker at the College of Medicine and Life Sciences May 2018 ceremony.

Dr. Rich is currently a Professor of Medicine and Epidemiology at The Warren Alpert Medical School of Brown University and a practicing Infectious Disease Specialist. A committee of medical students and faculty selected Dr. Rich from a national pool in recognition of his outstanding scientific accomplishments, his efforts to improve health care and his work related to addiction especially as it relates to the national opiate epidemic.

Dr. Rich is a co-founder of the Nationwide Centers for AIDS Research (CFAR) collaboration in HIV corrections initiative. He has advocated for public health policy changes to improve the health of people with addiction. He is an outstanding scientist and clinical translational investigator. He is the Principal Investigator on three RO1 grants and has published close to 200 peer-reviewed publications, predominantly in the overlap between Infectious Diseases, Addictions, and Incarceration.

Dr. Rich has been a practicing Infectious Disease Specialist since 1994 at The Miriam Hospital Immunology Center and at the Rhode Island Department of Corrections where he cares for prisoners with HIV infection while working in the correctional setting doing research. He has extensive expertise in the care and prevention of disease in addicted and incarcerated individuals. He is the Director and Co-founder of the Center for Prisoner Health and Human Rights at The Miriam Hospital. He has advocated to improve legal access to sterile syringes and an increase in drug treatment for incarcerated and formerly incarcerated populations.

Dr. Rich has served as an expert for the National Academy of Sciences, the Institute of Medicine along with many others. He was appointed by the Rhode Island Governor to the Overdose Prevention and Intervention Task Force Expert Team. He was selected as an expert adviser to assist the task force in formulating a strategic plan to address addiction and stop overdose in the state of Rhode Island. This task force was created to develop a strategic plan to put forth the most impactful initiatives in the areas of prevention of opioid addiction, reversal of opioid overdose, treatment of opioid addiction and recovery to reduce addiction and stop overdose death in Rhode Island.

Dr. Rich is a member of numerous societies including the American Medical Association, the American Academy of HIV Medicine, the American Public Health Association, the American College of Physicians and the Infectious Disease Society of America just to name a few. He has also served as a reviewer for numerous publications and received many awards.

Dr. Rich obtained a Bachelor of Arts degree in Chemistry at Columbia University in New York, NY, attended a year at Harvard University in the Division of Medical Sciences Cell and Developmental Biology program, completed his medical degree at the University of Massachusetts Medical School in Worcester, MA and his Master of Public Health from Harvard School of Public Health in Boston. This was followed by an internship and residency in Internal Medicine at Emory University Affiliated Hospitals in Atlanta, GA, a fellowship in HIV/AIDS at the Brigham and Women's Hospital in Boston and a fellowship in Infectious Disease from Harvard Medical School Combined Infectious Disease Training Program.

In recognition of his many accomplishments and activities, I request your support of the nomination of Dr. Josiah Rich for the Honorary Degree of Doctor of Science, *honoris causa*.

Recommendations for 2018 New Distinguished University Professor

The Academic Honors Committee sent out a call for nominations for Distinguished University Professors in the spring of 2017. Six tenured professor nominations were submitted by the September 30th, 2017 deadline. The Academic Honors Committee met in November of 2017 and endorsed three candidates to recommend to the Provost and President. The candidates include:

Dr. Abdollah Afjeh, Professor, College of Engineering

- Record as a dedicated teacher and mentor, engaged researcher, and honored professional.
- Received a B.S. in Mechanical Engineering, Now Sharif University of Technology, Tehran, Iran; and M.S. and Ph.D. in Mechanical Engineering from The University of Toledo; joined The University of Toledo faculty in 1984 as an Assistant Professor, rising to Professor in 1995. Serves as Chair of the Department of Mechanical, Industrial, and Manufacturing Engineering and as Founding Director of the Small Turbine Engine Institute.
- An accomplished, internationally recognized researcher in propulsion and energy conversion systems, focusing primarily on development and validation of computational models used to predict behavior of aerospace propulsion systems under flight conditions, which support the design and development of high speed rotating equipment—aircraft engines, small engine turbines, and wind turbines. He has also adapted his computational fluid dynamics models to more unexpected applications, developing aerodynamic and acoustic models of laryngeal vibration, or phonation.
- Co-developed numerical propulsion system simulation framework and software, which was widely adopted and extended by major turbojet and turbofan engine manufacturers to use for modeling operation of engines throughout the flight envelope.
- Strong record of research productivity and external funding, receiving 49 awards of over \$22 million and authoring or co-authoring 115 peer-reviewed publications.
- Among other awards, elected as an ASME Fellow by the American Society of Mechanical Engineers in 2012 and selected as a University of Toledo Outstanding Researcher in 2014.

Dr. Paul Hong, Professor, College of Business and Innovation

- Record as outstanding, award-winning teacher and researcher.
- Received a B.A. in Economics, Yonsei University, Korea; M.B.A. in Accounting and M.A. in Economics, Bowling Green State University; and a Ph.D. in Manufacturing Management and Engineering, The University of Toledo; joined The University of Toledo faculty in 1999, rising to Professor in 2007. He is also a certified management accountant.
- An internationally recognized researcher in network capabilities, global supply chain management, international comparative studies, and building growth engine industries for national competitiveness, as well as strategic priorities on implementation of supply chain management practices in the service sector, notably, U.S. healthcare industries.
- Strong record of research productivity, publishing over 200 peer-reviewed articles and 3 books and receiving external funding from the U.S. Department of Education and the U.S. Department of Transportation.
- Among other awards, selected as a Fulbright scholar in 2017 and as a University of Toledo Outstanding Researcher in 2015.

Dr. Joseph Slater, Eugene N. Balk Professor of Law and Values, College of Law

- Record as outstanding, award-winning teacher, honored professional, and nation's leading authority in public-sector labor law. He is also an expert witness on the history of labor law.
- Received a B.A. in History, Oberlin College; J.D., University of Michigan; and Ph.D. in History, Georgetown University; joined The University of Toledo faculty in 1999, rising to Professor in 2004 and a named Professorship in 2007.
- Recognized as the leading expert in public-sector labor law influencing two separate fields of study, labor history and modern labor law. His work is not only respected in the academy, but also by practicing attorneys, the courts, and the national and international media.
- Strong record of research productivity and innovation, publishing 4 extensively cited and widely reviewed books and 29 peer-reviewed articles and essays in law journals and academic history journals.
- Among other awards, elected as a Fellow of College of Labor and Employment Lawyers in 2014, and selected as University of Toledo Outstanding Faculty Researcher in 2016 and University Presidential Research Award in 2012.

Re: Department Name Changes in the College of Nursing

The College of Nursing has submitted a formal proposal to change the name of two departments:

1. Department of Nursing Science to the Department of Maternal, Pediatric and Mental Health
2. Department of Advanced Population Health to the Department of Adult, Family, and Population Health

The reorganization and renaming of the two departments better organizes faculty according to shared content focus and expertise, thus enhancing faculty collaboration and better promoting shared scholarship. The change also helps to evenly distribute the tenured faculty between the two departments. The old structure did not have enough tenured faculty in one of the departments necessitating inviting a tenured faculty member from Pharmacy to serve on the departmental Promotion Committee to fill this void.

These name change proposals were both endorsed by: 1) the Departments, 2) the College Council, 3) the Dean, and 4) the Faculty Senate.

The President and I both support the suggested departmental name changes and recommend approval by the UT Board of Trustees.
