<p><input type="checkbox"/> New policy proposal <input type="checkbox"/> Minor/technical revision of existing policy</p> <p><input checked="" type="checkbox"/> Major revision of existing policy <input type="checkbox"/> Reaffirmation of existing policy</p>	

(A) Policy Statement

The University of Toledo will ensure the privacy and security of protected health information (PHI) in the maintenance, retention and eventual destruction and disposal of such media. Destruction and disposal of PHI will be carried out in accordance with federal and state law, and as defined in the University’s retention policy. The schedule for destruction and disposal shall be suspended for records involved in any open investigation, audit or litigation.

(B) Purpose of Policy

The Health Information Management (HIM) Department is responsible for maintaining a medical record for each inpatient and outpatient. These records will be properly maintained and accessible. After the retention requirements have been met, destruction of the legal medical record will be carried out by a method that ensures no possibility to reconstruct the contents of the record.

(C) Procedure

This policy shall apply to health information that is generated during provisions of healthcare to patients in any of the University’s patient care units, patient care centers or faculty practices as well as human subjects research under the auspices of the University or by any of its agents in all University schools, units, departments and University owned or operated facilities.

1. Record Retention

- a. Medical records may be an electronic medical record, paper documents, microfilm, electronic data storage, etc., but must be maintained in such a way that the information is available for clinical reference upon request. Opportunities for loss and/or damage must be minimized and records must be secured to prevent unauthorized access.

- b. All clinical and administrative University of Toledo medical record information prior to document imaging (paper documents) will be kept for 10 years after discharge or service date for inpatient and outpatient encounters. Pediatric charts will be retained for 25 years. The following will be kept indefinitely:
 - i. Master patient index
 - ii. Death Register
 - iii. Surgery Register
 - iv. Transplant Register
- c. University of Toledo medical record documents that are scanned and stored in Horizon Patient Folder will be available in electronic image format according to the guidelines listed above. The paper copy will be maintained for 90 days and then destroyed according to policy.
- d. Other acquired documentation from outside resources used for clinical decision making and treatment planning will be scanned and stored in Horizon Patient Folder and will be available in electronic image format according to the guidelines listed above. Paper copies received from outside facilities can be destroyed once appropriately (readable) scanned into Horizon Patient Folder.

2. Record Destruction and Disposal

The destruction and disposal of PHI will be carried out in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) regulations.

- a. No PHI will be destroyed before the minimum retention period has been met as indicated above.
- b. Confidential information includes that which contains PHI of a patient, relative or household member of a patient. All documentation containing PHI must be destroyed in a manner that prevents reconstruction. Destruction will be in the following manner:

Media	Destruction Method
Paper	Incinerating, shredding or pulverizing
Computerized data	In accordance with UT Policy #3364-65-06 Technology Asset Management Policy
Radiology films	Shredding or pulverizing
Laser disks (WORM)	Pulverizing
Microfilm/fiche	Shredding or pulverizing
Patient labels	Shredding
Pt label ink cartridges	Shredding

- c. Any documentation containing PHI must be personally shredded or placed in a secure recycling container. PHI must not be discarded in trash bins, unsecured recycle
