(A) Policy statement

The cardiothoracic surgery service may perform cardiothoracic surgery on patients aged 18-22 years, or less than 18 years of age if the patient's attending physician and the Medical Director of the cardiothoracic surgery service determine that such service will benefit the patient.

(B) Purpose of policy

- (A) The purpose is to comply with the provision (A) rules 3701-84-36 – 3701-84-40 of the Ohio Administrative Code. The code is applicable to open heart surgery services performing procedures on adult patients greater than or equal to eighteen years of age. An open - heart surgery service may serve a patient less than eighteen years of age if the patients attending physician and the program medical director determine that the adult service best serves the needs of the patient.

(C) Procedure

1. The Cardiothoracic Surgery Medical Director or his/her designee will contact the patient's attending of record and/or cardiologist and discuss the pending case.
2. After such discussion with the patient's attending physician, the Medical Director or his/her designee will notify the cardiothoracic surgery scheduler to schedule surgery.
