

Nursing Service / Cardiac Rehabilitation Consult Services Guideline

Title: Cardiac Rehabilitation Consult Services Guideline

Responsibility: Cardiac Rehabilitation (CR) staff

Purpose of Guideline: To ensure Cardiac Rehabilitation Evaluation Documentation is readily accessible to appropriate health care providers to facilitate patient care.

Procedure:

1. Physician orders Cardiac Rehab Consult.
2. Cardiac Rehab obtains and reviews orders.
3. Cardiac Rehab evaluates patient to determine eligibility and interest in the program.
4. Consults notes will be available in Horizon HED under the "Patient Education" section, CR tab, and will include the following:
 - Patient eligibility
 - Education provided
 - Cardiac Rehabilitation facility location
 - Comments and time entry for education
 - E-signature, time, date
5. If a patient is discharged on an evening, weekend or holiday, Cardiac Rehab Services will document on the UTMC Patient Progress Note and scan into the inpatient EMR the next business day.
