   e. Numbers lost
Acudose

1. Individual prescriptions can be dispensed per patient from the Acudose for writing outpatient prescriptions by the attending prescriber, or their agent for the patient’s discharge medications.

2. The Acudose will be assigned a prescription pad by pharmacy.

3. A log will be kept in pharmacy that includes the following:
   a. The number of the beginning and ending numbers on the prescription pad that was assigned to the Acudose.
   b. The Acudose unit that the prescription pad was assigned to.
   c. The date the prescription pad was stocked in the Acudose.
   d. The signature of the pharmacy staff member stocking the Acudose with the prescription pad.

4. Individual prescriptions that are dispensed per patient from the Acudose will be kept in the possession of the prescriber, or locked up at all times.

5. Pre-signed and/or post-dated prescriptions are prohibited.

6. The Acudose shall hold only one prescription pad at a time, each containing 10 scripts per package.

7. Prescriptions pads stored inside the Acu-dose are available for emergency use for prescribers at The University Of Toledo Medical Center who do not have access to their prescription pad and shall be used for outpatient use only.

Completed prescriptions
1. Every attempt should be made to complete discharge prescriptions immediately prior to discharge:
2. I-Meds prescriptions delivery service can collect prescriptions ahead of time and deliver to the patients bed at the time of discharge
3. If completed prescriptions must be stored prior to discharge: The prescriptions must be in a secure location. Approved locations
   a. Acudose patient specific bin in automated dispensing cabinet
   b. Patient’s paper chart
