Department:	Radiation Oncology	
Approving Officer:	Chief Executive Officer - UTMC Professor & Chairman, Radiation Oncology	
Responsible Agent:	Technical Manager, Radiation Oncology	Effective Date: 7/1/2023
Scope:	Radiation Oncology	Initial Effective Date: 6/30/1993
		cal revision of existing policy of existing policy

(A) Policy Statement

All Radiation Oncology patients will have a face photo obtained for identification purposes. Localization photos will be obtained as needed.

(B) Purpose of Policy

To identify patients and area(s) of treatment.

(C) Procedure

- 1. Full face photo of the patient will be taken at the time of consultation and kept on file in Aria for identification purposes.
- 2. A set up photo of patients position on the table and any positioning/immobilization devices will be taken during simulation as needed. Tattoo's used in the patient's alignment may be photographed as well in simulation.
- 3. All photographs will be imported into Aria.
- 4. The patient shall be tattooed in a stable area for positioning that will aid the radiation therapists in correctly localizing the treatment area.
- 5. All electron fields will be photographed, labeled and placed in the patient's treatment chart in Aria.
