

STUDENT RESOURCE II: **Challenge 1**

Defining Green/Open space

In an effort to develop understanding of green space, you and your classmates will draft a definition of the term in 2-3 sentences. Respond to the following prompt.

Currently, the word “green” is used to mean more than just a color. In our case, we are going to consider how the word green is associated with the environment, and more specifically with land use. Compose a personal definition for “green space” and be prepared to share your definition with the class.

Write your definition here:

2. As other students discuss their individual definitions, keep track of elements of their definitions on the T-chart below.

Similar	Different

Write the class definition here:

Challenge: Complete one of the following if prompted by the teacher.

1) Locate a definition for open space. Compare and contrast this definition with the definition for green space.

2) With your class, define open space. Then, create a Venn diagram comparing and contrasting the two concepts.
