Student Resource IV

Exploring Your Neighborhood through Fieldwork

The purpose of this activity is to explore the potential parks and community gardens of your neighborhood that you identified with Google Earth and see if they are parks and community gardens as you thought.

Important Note: Please do not trespass on people's properties. All of your observations should occur from public sidewalks or streets only.

List the factors that make this parcel a park or community garden (What is a parcel of land? It is a measured portion of land. Source: https://www.reference.com/science/parcel-land-f8c30b208d6c3cd8?qo=contentSimilarQuestions)

Parcel 1 Lat long	Parcel 2 Lat long
