

Exploring Your Street through Fieldwork

The purpose of this activity is to explore your assigned street by seeing it for yourself. You will repeat the procedures for grading the three factors you chose, but this time you will see it for yourself rather than virtually.

Important Note: Please do not trespass on people's properties. All of your observations should occur from public sidewalks or streets only.

List all of the properties on your assigned block/s individually on these pages. Grade each of the three factors you chose according to this scale:

A=Very Good, B=Good, C=Average, D=Fair, F=Poor

Address: _____
