

### III. Explain

Explaining the youth employment and community context through data

A. Look at the census data for their city/community and compare what they see to state or national averages. (Go to <https://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml#> and enter name of place and state)

How does your city/place compare to your state?

B. Putting observations into perspective through data analysis: Student Resource IX

Compare the data sets of City 1 and City 2 and note down the differences in the two communities. (Teacher provides the links for these topics) Student Resource IX

	Example 1	Example 2
Population		
Median Income		
Education levels		
Age groups		

What questions/comments do you have about the differences these two places, and the impact that would have on job opportunities?
